FOR YOUR INFORMATION

The Following Notice was Published by the District

NOTICE OF PRELIMINARY DECISION TO APPROVE
APPLICATIONS FOR EMISSION REDUCTION CREDITS BY THE
SAN DIEGO AIR POLLUTION CONTROL DISTRICT

The San Diego Air Pollution Control District hereby gives notice that in accordance with Rule 26.0 of the District's Rules and Regulations, the Air Pollution Control Officer has made a preliminary decision to approve an application for emission reduction credits, submitted by Callaway Golf Company. These applications were for the shutdown of the operations previously permitted under Permit Nos. 970728 and 910101, located at 2180 Rutherford Road, Carlsbad, CA. Permit No. 910101 was issued for a golf club assembly operation, which used adhesives and solvents. Permit No. 970728 was issued for a solvent wipe cleaning operation. This shutdown has been evaluated to create 12.18 tons/year of actual emissions reductions for volatile organic compounds (VOC).

The District has determined that these reductions are real, surplus, enforceable, quantifiable and permanent when all conditions imposed by the District are complied with, and therefore the credits will be classified as "class A emission reduction credits". These credits are transferrable in whole or in part, and are eligible for use as emission offsets pursuant to all District rules and regulations.

The evaluation of this application is available for review at the Air Pollution Control District, 10124 Old Grove Road, San Diego, CA 92131. Please refer to Application No. APCD2012-ERC-000019-20 on all correspondence regarding this project. Written comments concerning the District's proposed action may be submitted for a period of 30 days, commencing June 4, 2013, and ending on July 3, 2013. Questions regarding this notice may be directed to Mahiany Luther at (858) 586-2725 or via email to Mahiany.Luther@sdcountry.ca.gov.
