FOR YOUR INFORMATION

The Following Notice was Published by the District

NOTICE OF PRELIMINARY DECISION
TO APPROVE APPLICATIONS FOR EMISSION REDUCTION CREDITS
BY THE SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT

The San Diego Air Pollution Control District hereby gives notice that in accordance with Rule 26.0 of the District's Rules and Regulations, the Air Pollution Control Officer has made a preliminary decision to approve an application for emission reduction credits, submitted by Qualcomm. This application was for the replacement of three combustion turbines previously permitted under Permit Nos. 8901, 8902 and 8903, located at 5555 Morehouse Drive, San Diego, CA 92121, with a new combustion turbine and an emergency standby engine. This replacement has been evaluated to create 20.6 tons/year of actual emissions reductions for nitrogen oxides (NOx).

The District has determined that these reductions are real, surplus, enforceable, quantifiable and permanent when all conditions imposed by the District are complied with, and therefore the credits will be classified as "class A emission reduction credits". These credits are transferrable in whole or in part, and are eligible for use as emission offsets pursuant to all District rules and regulations.

The evaluation of this application is available for review at the Air Pollution Control District, 10124 Old Grove Road, San Diego, CA 92131. Please refer to Application No. APCD2012-ERC-000026 on all correspondence regarding this project. Written comments concerning the District's proposed action may be submitted for a period of 30 days, commencing October 10, 2013, and ending on November 12, 2013. Questions regarding this notice may be directed to Camqui Nguyen at (858) 586-2747 or via e-mail to camqui.nguyen@sdcounty.ca.gov.
