Describe how material is loaded into storage: ____________________________________________

__________________________________________________________________________________

2. LOADOUT EQUIPMENT

Material is off loaded into: □ Railcar □ Enclosed Truck □ Ships □ Open Truck

Method of off loading: □ Pneumatic □ Screw Conveyor □ Belt Conveyor

General Description of loadout operation: ____________________________________________

__________________________________________________________________________________

3. DUST CONTROL EQUIPMENT

Describe how dust emissions are controlled from each storage unit: ______________________

__________________________________________________________________________________

__________________________________________________________________________________

Describe how dust emissions are controlled from loadout operations: ____________________

__________________________________________________________________________________

__________________________________________________________________________________

Attach all appropriate manufacturer’s specifications
4. **HAUL ROAD DESCRIPTION** *(Attach Sketch)*

- **Surface:** __________________________
- **# of Lanes:** _________
- **Length:** _______miles

- **Road Dust Control:** ____________
- **Frequency:** ____________
- **Method:** ______________

- **Speed Limit:** _______ mph
- **Type of Vehicles:** ______________

- **# of Wheels:** _______
- **Weight Empty:** ____________
- **Weight Loaded:** ____________

5. **OPERATING SCHEDULE**

- **Days per week:** _______
- **Hours per day:** _______
- **Days per month:** _______

**Name of Preparer:** ____________________________
**Title:** ____________________________

**Phone No.:** (____) ____________
**Date:** ____________________________

**NOTE TO APPLICANT:**
Before acting on an application for Authority to Construct or Permit to Operate, the District may require further information, plans, or specifications. Forms with insufficient information may be returned to the applicant for completion, which will cause a delay in application processing and may increase processing fees. The applicant should correspond with equipment and material manufacturers to obtain the information requested on this supplemental form.
