**SUPPLEMENTAL APPLICATION
EVR PHASE II UPGRADE ONLY**

**FEE SCHEDULE
26A and F**

SAN DIEGO APCD USE ONLY

App. No.:

ID No.:

PHASE II EVR UPGRADE

THIS FORM SHALL ONLY BE USED TO APPLY FOR THE INSTALLATION OF AN ENHANCED VAPOR RECOVERY PHASE II SYSTEM AT AN EXISTING GASOLINE DISPENSING FACILITY WITH UNDERGROUND STORAGE TANK(S).

A. Please check TRUE or FALSE for the following items:

1. A new gasoline dispensing facility True False
2. Modification at a facility with aboveground storage tanks True False
3. Installation, replacement and/or removal of storage tank(s) True False
4. Installation, replacement and/or removal of Phase I EVR system True False
5. Installation, replacement and/or removal of underground vapor and/or vent piping outside of the tank, vent and/or dispenser sump True False
6. Facility has a liquid condensate trap True False

B. The following items are only applicable to applications proposing a Phase II Balance EVR vapor recovery system with a VST Membrane Processor. Do not complete the following three items if you are proposing a Healy Phase II EVR Vacuum Assist system or a Phase II Balance system with a Veeder-Root Carbon Polisher:

1. Facility is **NOT** equipped with a vapor underground manifold True False
2. Facility does **NOT** have at least two (2) separate vent risers True False
3. The Vent Lines are manifolded underground True False
4. If new dispensers are proposed, the internal diameter of the dispenser vapor return piping will be less than one inch (1") N/A (Existing Dispensers) True False

If you checked "TRUE" for any of the items under Section A or B, you may not apply for an over-the-counter Authority to Construct. In order to apply for an Authority to Construct you must submit to the District: complete application forms (General Form App 116 and Supplemental Form 26AF VOC Dispensing Facilities), associated application fees and a site plan including the underground vapor and vent piping, tank(s) and dispenser(s).

SAN DIEGO AIR POLLUTION CONTROL DISTRICT

**SUPPLEMENTAL APPLICATION
EVR PHASE II UPGRADE ONLY**

**FEE SCHEDULE
26A and F**

SAN DIEGO APCD USE ONLY

App. No.:

ID No.:

If you checked "False" or "N/A" for all of the items under Section A and B, please complete Section C of this form and the District General Application Form App116. These application forms must be submitted to the District with the required permit fee. Once your application is deemed complete, the District will contact you to schedule an appointment, where you will receive your Authority to Construct.

C. Phase II System (Address Gasoline Only):

1. Proposed Phase II System: _____ EO: VR- _____

2. Number of nozzles: _____ Number of grades per nozzle: _____

3. Number of dispensers: _____

4. ISD Manufacturer: _____ Version: _____

5. Vapor Processor Manufacturer: _____ Model No.: _____

6. Max. Throughput: _____ (gallons per year)

Please be advised that installation and operation of the proposed equipment without written authorization is a misdemeanor and may be subject to fines or penalties. Facilities and contractors performing any modification beyond what is allowed by the Authority to Construct to be issued for this project, may be subject to enforcement actions.

I hereby certify that all information provided on this application is true and correct.
