NOTICE OF WORKSHOP

FOR DISCUSSION OF 2008 AIR TOXICS "HOT SPOTS" PROGRAM REPORT

The San Diego County Air Pollution Control District (District) will hold a public meeting to receive comments on the 2008 Air Toxic "Hot Spots" Program Report. Comments regarding the report may be submitted at the workshop, or in writing prior to the workshop, which is scheduled as follows:

DATE: Monday, June 22, 2009

TIME: 9:00 a.m. to 11:00 a.m.

**PLACE: San Diego Air Pollution Control District
Main Conference Room
10124 Old Grove Road
San Diego, CA 92131**

The District has prepared a 2008 report of the local program implementing the Air Toxics "Hot Spots" Information and Assessment Act of 1987 (AB2588). The Air Toxics "Hot Spots" program requires facilities that emit toxic substances to provide local air pollution control districts with information that will allow an assessment of the air toxics problem, identification of air toxics emission sources, notification of the public exposed to significant health risk from toxics air emissions, and development of effective strategies to reduce potential risks to the public.

The report summarizes the "Hot Spots" program elements, the current status of the program in San Diego County, stationary and mobile emission estimates, emission reduction efforts, results of local health risk assessments and current status of public notifications and risk reduction plans. Stationary source emission estimates, by facility, are available on the District's website by selecting the "Air Toxics" button and then selecting "Facility Emissions for San Diego County 1997 - 2007."

OVER

A summary of comments received will be prepared and provided to the Air Pollution Control District Board as part of its consideration of the 2008 report at a public hearing. If you have any questions or comments concerning the draft report, the Air Toxics "Hot Spots" program, or the upcoming workshop, please contact Archi dela Cruz at (858) 586-2732. The draft report can be seen on the District's Web Site at <http://www.sdapcd.org/rules/wrkshps/wrkshed.html>.

ROSA MARIA S. ABREU, Assistant Director
Air Pollution Control District
