

**SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT
STATE TERRITORIAL WATER (STW) ENGINE NOTIFICATION**

Applicant Name	
Contact Name	
Contact Mailing address	
Contact Email	
Contact Phone Number	
Project Name <i>(for example, undocking of vessel A)</i>	

Engine Information		Engine for this Project			
		1	2	3	4
PERP Number					
Engine Nameplate Data	Make				
	Model				
	Bhp				
Engine Exhaust Emission in (g/bhp-hr)	NOx				
	CO				
	VOC				
	PM				
	SOx				
Operating Location					
Operating Date					
Maximum Operating Hours per Day					
Total Operating Hours for Project					

Please attach the following:

- (1) Copy of PERP certificate for each engine and equipment unit.
- (2) Supporting documents for the engine exhaust emission data (manufacturer's specifications, manufacturer's exhaust emissions, etc.) if the PERP certificate is not available.
- (3) Calculations showing the estimation of actual emissions expected for the project.
- (4) If the project was previously granted an authorization to operate in STW in San Diego County, please provide a copy of the authorization.
- (5) e-mail this form and attachments to APCDComp@sdapcd.org and APCDEngineering@sdapcd.org
APCD will respond within 2 weeks of receiving this form.

Note: If a project is determined to trigger an air quality impact analysis (AQIA), additional fees will apply and further information will be requested, including exhaust height from water surface, exhaust flow rate, temperature and direction, plot plan showing exhaust location with respect to vessel, and a map of the operating location.
