Minimum Qualifications

Dealership/Installer must

- Have had a valid California business license for a minimum of the last two years
- Have had a valid vehicle dealership license with DMV for a minimum of the last two years
- Maintain a minimum of one Carl Moyer-trained employee at each location
- Allow the District or CARB to inspect Moyer-related vehicles or audit program records during business hours
- Installers must be authorized by the manufacturer

San Diego Air Pollution Control District

Self-Certification Affidavit Dealership/Installer Minimum Qualifications

Please fill out the information requested below along with a signature and date at the bottom of the form.

Name of Dealership or Installer: _____

Address: _____

Phone Number: _____ E-mail: _____

Contact Name: _____ Title: _____

I swear under penalty of perjury that our business meets the following minimum qualifications and will continue to meet these qualifications throughout participation in the Carl Moyer Program (Program):

1. Dealership/Installer has had a valid business license issued in California for a minimum of the last two years.
2. Dealership has had a valid vehicle dealership license with DMV for a minimum of the last two years. The installer is authorized by the manufacturer.
3. Dealership/Installer maintains a minimum of one employee that has successfully completed the training by the San Diego County Air Pollution Control District (District) regarding terms, conditions and requirements of the Program. If a participating dealership maintains more than one location for truck sales, then each location must have at least one employee trained.
4. Dealership/Installer agrees to allow the District or CARB to inspect vehicles or audit program records covered under the Program Guidelines during normal business hours.

Upon request from the District or CARB, I agree to produce documentation of any of the above-listed items.

Name (Print): _____

COMPLETE SAN DIEGO COUNTY APCD GRANT PROGRAM APPLICATIONS

Dear [REDACTED],

This letter is to confirm that we have received your applications for Year 21 (2019) San Diego County APCD Grant Program funding for the following projects:

Project Description	Equipment Unit No.	APCD Record ID
Equipment Replacement	507	APCD2019-OVEH-0048
Equipment Replacement	539	APCD2019-OVEH-0051
Equipment Replacement	540	APCD2019-OVEH-0052
Equipment Replacement	541	APCD2019-OVEH-0055
Equipment Replacement	542	APCD2019-OVEH-0059
Equipment Replacement	543	APCD2019-OVEH-0065

District Review

District awards grant contract to applicants

August 5, 2020

Dear [REDACTED],

It is my pleasure to inform you that you have been approved for grant funding in the amount of up to \$772,126 from the Air Pollution Control District's "Clean Air for All" grant program to replace two (2) [REDACTED] (VINs 1HVBABM4XH676093 and 4UZAAWAKX2CJ65006) with new electric buses.

I appreciate your participation in the District's incentive program, which will help to improve air quality by reducing harmful diesel and other air pollutant emissions. The Air Pollution Control District staff will be in contact with you regarding additional eligibility requirements and the next steps in the funding process. They may be reached at (858) 586-2600 or cleanairgrants@sdcounty.ca.gov.

Carl Moyer Process/Timeline

Applicant shops for replacement vehicle(s)

Dealer is
trained and
approved by
District

Applicant orders replacement vehicle(s)

Replacement
vehicle(s)
inspected

Applicant transfers old vehicle(s) to dealer

Applicant
takes
possession of
replacement
vehicle(s)

Pre-dismantle inspection of old vehicle(s)

Dealer
transfers old
vehicle(s) to
District-
approved
dismantler

Applicant
submits
reimbursement
documents to
the District

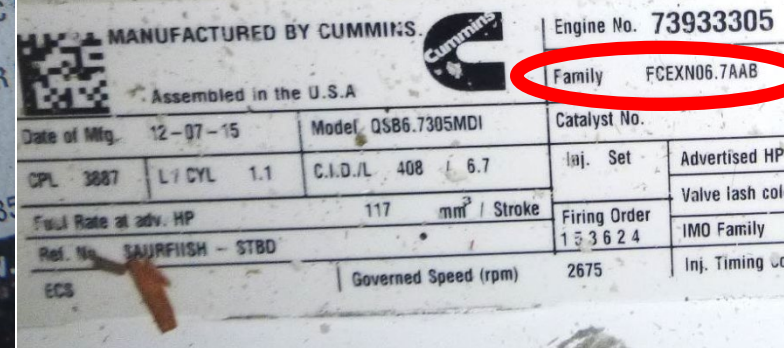

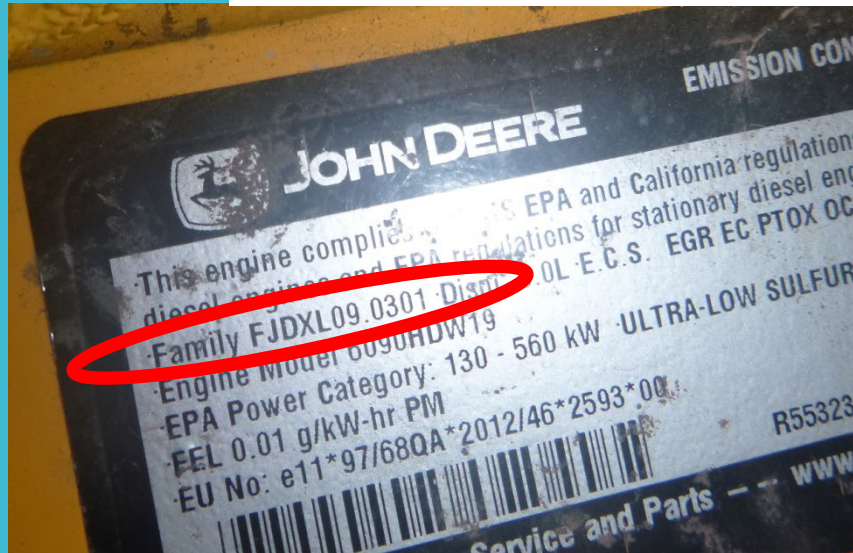

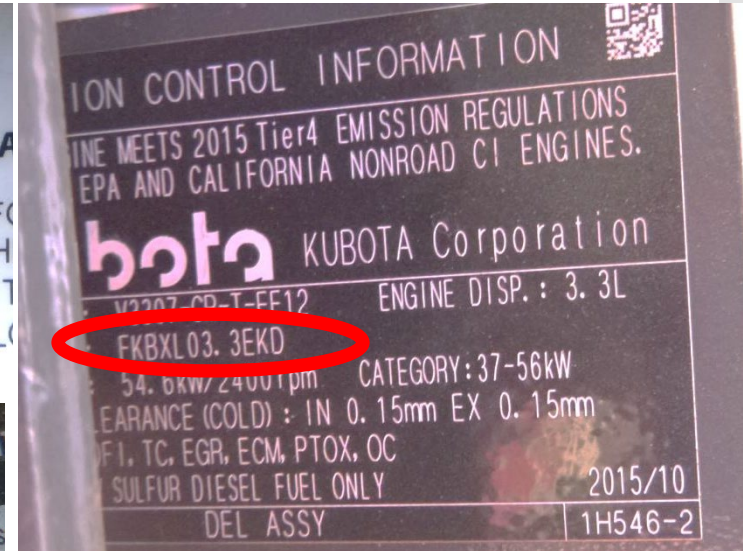

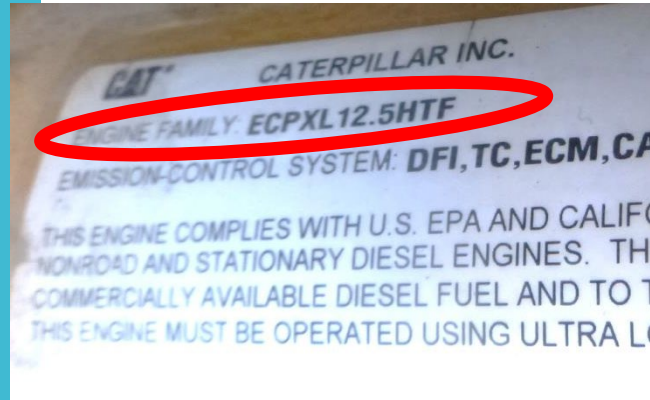

Replacement Vehicle Inspection

Required Replacement Vehicle Photos

- One side of the vehicle (hood down)
- VIN Tag - inside vehicle or on frame rail
- Engine serial number and engine tag (or primary motive power components)
- License plate
- Odometer reading
- Left and right side of engine
- Modifications (if any)

Replacement Vehicle Inspection

Engine Family Name

Example: 7CEXHo661MAZ

Pre-Dismantle Vehicle Inspection

Existing Vehicle Condition Must Be

- In similar condition as it was during the application evaluation (pre-inspection)
- Roadworthy
- Not have been stripped of parts except
 - Vocational external body components like dump body or box
 - Non-stock vocational internal equipment like food preparation equipment in a food truck

Pre-Dismantle Vehicle Inspection

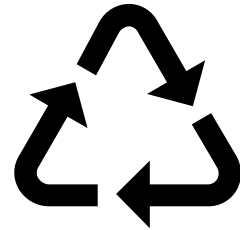

Required Pre-Dismantle Vehicle Photos

- Right and left side of vehicle - hood down
- Front - hood down
- Rear
- VIN Tag - inside vehicle or on frame rail
- Engine serial number and engine information, if available (make, model year, engine family) - either tag or stamp on block
- License plate
- Left and right side of engine
- Gross Vehicle Weight Rating (GVWR)
- Odometer reading

Delivery to Qualified Dismantler

Deliver within 60 Calendar Days

- Dealer/Installer must deliver existing engine/vehicle to qualified dismantler within 60 calendar days of receipt of the old engine and/or vehicle from the grant recipient
- The participating dismantler may also pick up the existing engine/vehicle

SAN DIEGO AIR POLLUTION CONTROL DISTRICT
Heavy-Duty Truck Replacement Program

Certification to Deliver Engine(s)/Vehicle(s) to Qualified Dismantler

I certify that the old engine(s) and/or vehicle(s) listed above will be delivered to a qualified dismantler within 60 calendar days of receipt of the old engine(s) and/or vehicle(s) from the grant recipient listed below.

Dismantler:

Name of Dismantler: _____

Contact Name: _____ Title: _____

Phone Number: _____ E-mail: _____

Dealership or Installer:

Name of Dealership or Installer: _____

Address: _____

Phone Number: _____ E-mail: _____

Delivery to Qualified Dismantler

Certification to Deliver Vehicle(s)/Engine(s) to Qualified Dismantler

Vehicle Information			Engine Information		Date of Dealer/Installer Receipt	Expected Delivery <u>Date</u> to Dismantler
Vehicle ID#	Make, Model & Year	VIN	Make & Model	Serial Number		

- Complete and submit this form to the District ASAP

Delivery to Qualified Dismantler

Use of Engine or Vehicle Pending Destruction

The dealer/installer may not use or permit the use of the engines or vehicles, except:

- to move the engine/vehicle for destruction
- to store the engine/vehicle

Electric or Hybrid Vehicles (New or Converted)

Provide Copy of Owner's Manual to District

The owner's manual must at least include the following:

- A brief description of the vehicle/conversion system, including major components and their theory of operation and proper operating procedures
- Battery maintenance best practices and charging procedures and protocols, if applicable
- A listing of necessary service intervals and service requirements that differ from the base vehicle's or engine's original manufacturer's, if applicable
- A statement that the hybrid converted vehicle is subject to all in-use vehicle inspection and maintenance programs applicable to its size, type, and class

Electric or Hybrid Vehicles (New or Converted)

Provide Copy of Owner's Manual to District

- The name, physical address, e-mail address, phone number, and website, if available, of the manufacturer and authorized installer, as well as a list of the names, addresses, and phone numbers of the major dealers who supply parts for, or service the vehicle
- All information necessary for the proper and safe operation of the vehicle, including information on safe handling of the battery or energy storage system, and emergency procedures to follow in the event of battery leakage or other malfunctions that may affect the safety of the vehicle operator, emergency personnel, or laboratory personnel
- The product warranty statement
