

1564 WEST MISSION ROAD

ESCONDIDO, CA 92029

(760) 745-0556

May 5, 2022

Dear Neighbor:

Accompanying this letter is a public notification mandated by a California law known as AB 2588, and an isopleth map showing the two areas where emissions during a one hour period were calculated to exceed a public notification threshold established by the APCD. While there are no human habitations within the isopleths, the isopleth covers part of your property and a person could be within the isopleth for more than an hour.

Moreover, Superior Ready Mix has proposed some changed operating conditions that we believe will eliminate the exceedance of the threshold going forward, and the APCD is currently reviewing these proposed changes.

We believe that open communications with our neighbors will help us to continue operating our business well, provide great employment opportunities and be the best possible neighbor we can be. Superior Ready Mix is committed to operating our business to minimize neighborhood impacts. Should you ever have concerns with any aspect of the operation of the business, please contact us by calling or emailing Arnold Veldkamp at 760-745-0556 and [aveldkamp@superiorrm.com](mailto:aveldkamp@superiorrm.com).

Thank you!
