The correct submittal fee (estimate) is based on the type of equipment, reason for submittal, and whether there are existing APCD permits at the location the equipment will be permitted. Determine your application fee estimate by selecting the option in the left-hand column that best describes your application and reading across the row.

Fees listed in the column labeled "Evaluation T&M Fee" are estimates. Fees are assessed based on a time and material basis, so the final fee may be more or less than this amount based on the actual labor expended.
