Emissions Inventory Request Form Instructions

**MINERAL PRODUCTS – CEMENT/FLY ASH STORAGE SILOS**

Please refer to the general instructions for guidance regarding the following sections: Reporting Year, Facility Identification, Permit Information, Device Information, Stack / Ducted Emissions and Fugitive Release Emissions.

**MATERIAL/ PROCESS INFORMATION**

Fill in all the data fields. Complete all blanks using the specified units. Use a separate form to report each material used for each device. Copy the blank form as needed to report each material used. On forms with pre-printed process information from a previously submitted inventory, asterisks (\*) highlight data fields that must be updated.

**Number of Storage Silos:** Report the total number of storage silos.

**Total Storage Capacity (tons):** Report the sum of the individual silo capacities.

**Annual Throughput (ton/year):** Report the total tons of material delivered during the reporting year.

**Max. Delivery Received (tons/load):** Report the maximum tons received per delivery.

**Device Operating Schedule:**

**Daily Operation (hours/day):** Report the average amount of hours the device operates in a typical day.

**Weekly Operation (days/week):** Report the average number of days the device operates in a typical week.

**Annual Operation (days/year):** Report the number of days the device operated during the Reporting Year.

**POLLUTANT NAME (lbs/lb TSP)**

If available, provide site-specific emission factors in units of pounds pollutant per TSP (total suspended particulates) emitted with supporting documentation. Default emission factors will be used to estimate emission where site-specific factors are not available or not documented.
