

San Diego APCD
Emissions Inventory Request Form Instructions

MINERAL PRODUCTS – MATERIAL STORAGE

Please refer to the general instructions for guidance regarding the following sections: Reporting Year, Facility Identification, Permit Information, Device Information, Stack / Ducted Emissions and Fugitive Release Emissions.

MATERIAL/ PROCESS INFORMATION

Fill in all the data fields. Complete all blanks using the specified units. Use a separate form to report each material used for each device. Copy the blank form as needed to report each material used. On forms with pre-printed process information from a previously submitted inventory, asterisks (*) highlight data fields that must be updated.

Material Type: Identify the type of material stored, (i.e., aggregate, base, sand, etc.).

Total Storage Area (acres): Report the total acreage of all storage piles on site for the reporting year.

Device Operating Schedule:

Daily Operation (hours/day): Report the average amount of hours the device operates in a typical day.

Weekly Operation (days/week): Report the average number of days the device operates in a typical week.

Annual Operation (days/year): Report the number of days the device operated during the Reporting Year.

POLLUTANT NAME (ppmw)

If available, provide site-specific emissions factors of the dust in units of parts per million parts by weight (ppmw) with supporting documentation. Default emission factors will be used to calculate emissions where site-specific information is not available or not documented.
