Fxx - 70T Self-Shielded, Flux Core Arc Welding (FCAW) Welding Process Emission Factors

| <u>1744 - 701 C</u> | Sen-Sinciaca, Plaz Co | | Juling 110 | | ion ractors | | |
|--|--|---|------------|---------------|---|--|--|
| CALCULATION METHODS | 5 | | | | | | |
| Annual Emissions: Ea = Ua x E | | | | | | | |
| Hourly Emissions: $Eh = Uh \times E$ | EF (lbs/lb rod) x (1-e) | | | | | | |
| Ea = Annual emissions of each Eh = Maximum hourly emission Ua = Annual usage of each weld Uh = Maximum hourly usage of EF = Emission Factor (lbs/lb ro | ns of each listed toxic air co ding rod, (lbs/year) f each welding rod, (lbs/hou | ontaminant per welding rod, (lbs/hour) | | | | | |
| (2) Incomplete AP-42 Final Sec (3) No AP-42 information but k (4) District Study or AWMA in (5) Incomplete District Study in | ction 12.19 (1/95): EF = FG known welding process: EF formation: EF = Trace Meta nformation: EF = FGR (Dist | (1/95): EF = Trace Metal EF (Table 1 R (Table 12.19-1) x FCF x Ci (MSDS = FGR (District Default) x FCF x Ci (al EF trict Study) x FCF x Ci (MSDS) romium information: EF = Cr (Total Cl |) MSDS) | Fumes) EF x F | łCR | | |
| NOTES: Emission factors assume "uncontrolled" releases. Emission control methods and efficiencies reported are be applied within the emission calculations. Fume generation rates (FGR) are based on the following: oEPA AP-42 Final Section 12.19 (1/95) Table 12.19-1 (PM10 EF) oARB, Richard Bode: 0.01 (GMAW, TIG, MIG), 0.02 (SMAW, FCAW), 0.00005 (SAW), 0.05 (unspecified) Fume Correction Factors (FCF) per District engineering discussions with Industry: oI0.5464 (GMAW, TIG, MIG), 0.2865 (SMAW, FCAW, SAW), 1.0 (unspecified) Trace metal emission factors are based on the following: oAWMA Volume 59, 2009, Issue 5 (Pages 619-626) Table 2 and Table 3 oEPA AP-42 Final Section 12.19 (1/95) Table 12.19-2 oIDistrict engineering estimates using rod compositions (Ci) from MSDS Hexavalent chromium conversion rates (HCR) are per District engineering reviews of studies on welding: oI.0.55 (GMAW, TIG, MIG), 0.55 (SMAW), 0.0005 (SAW), 0.10 (FCAW, unspecified) | | | | | | | |
