The San Diego County Air Pollution Control District hereby gives notice that in accordance with Rule 20.2 of the District's Rules and Regulations, the Air Pollution Control Officer has made a preliminary decision to approve an Authority to Construct for four emergency engines/generators to be operated at Gilead Sciences, Inc. Permit conditions will limit operations to no more than 34 hours per year for testing and maintenance. The combined potential to emit for all four engines are approximately 862 pounds per year of oxides of nitrogen, 113 pounds per year of carbon monoxide, 45 pounds per year of volatile organic compounds, 32 pounds per year of particulate matter less than or equal to 10 microns in diameter.
