

San Diego County  
**Air Pollution  
Control District**

July 12, 2024

**ATTENTION: PARENTS OR GUARDIANS OF CHILDREN ATTENDING LAKESIDE FARMS ELEMENTARY  
SCHOOL, NEIGHBORING RESIDENTS & BUSINESSES  
NOTICE OF INTENT TO ISSUE A PERMIT FOR CONSTRUCTION OF  
A CEMENT SILO**

This notice is to inform you that an application has been filed with the San Diego Air Pollution Control District (SDAPCD) by DDT LLC for a Permit to Construct and Operate two (2) cement silos to be located at 12125 Lakeside Ave., Lakeside, CA 92040.

You are receiving this notice because state law requires local air pollution control districts, such as SDAPCD, to notify certain individuals prior to approving construction of any equipment that may increase toxic air contaminant emissions within 1,000 feet of a school. The notice is sent to all addresses within 1,000 feet of the equipment and parents or guardians of children attending any schools located within a quarter mile radius of the equipment. The law also requires the SDAPCD to consider any public comments before approving the permit for construction of this equipment.

Toxic air contaminants are chemicals in the form of gases, liquids, or particles that are emitted into the atmosphere and, when individuals are exposed to them, may cause adverse health effects. The proposed cement silos produce particulate matter (PM) during normal operation in the form of cement dust which is released into the air. These particulates contain toxic air contaminants. The cement silos are equipped with control devices that reduce the amount of particulate matter that is released during operation.

The SDAPCD is committed to improving air quality to protect public health and the environment by applying and enforcing local, state, and federal air quality rules and regulations in San Diego County. The proposed project has been evaluated by the SDAPCD and is expected to operate in compliance with all applicable air quality rules and regulations.

Written comments concerning the air quality issues associated with the SDAPCD's proposed action may be submitted to SDAPCD by August 21, 2024. Please refer to Application Nos. APCD2024-APP-008106 and APCD2024-APP-008125 on all correspondence regarding this project.

The SDAPCD's evaluation of this application and proposed permit conditions are available on the SDAPCD's website at: <https://www.sdapcd.org/content/sdapcd/permits/public-notices.html>. Questions regarding this notice may be directed to the SDAPCD's Engineering Division at (858) 586-2600 or [APCDEngineering@sdapcd.org](mailto:APCDEngineering@sdapcd.org).

Sincerely,

Nicholas Horres

Senior Air Pollution Control Engineer
