

## **REGULATION III. FEES**

### **RULE 40. PERMIT AND OTHER FEES**

(Adopted June 17, 1998; Effective July 1, 1998)

#### **(a) AUTHORITY TO CONSTRUCT AND PERMIT TO OPERATE FEES**

Every applicant for an Authority to Construct and/or a Permit to Operate or a Certificate of Registration for any article, machine, equipment or other contrivance shall pay an evaluation fee for each permit unit in the amount prescribed in Section (h), except as provided in Subsection (1) below. No application for Authority to Construct or Permit to Operate or Certificate of Registration shall be considered received unless accompanied with the appropriate fee. If a permit applicant certifies to the Air Pollution Control Officer's satisfaction through declaration that it is unable to pay either the full fixed fee for fixed fee applications or the estimated application and first year renewal costs for time and material applications, the District may authorize the applicant to divide the cost into two payments with the second payment due not later than 90 days after filing of the Application for Authority to Construct or Permit to Operate or Certificate of Registration. The applicant will be required to pay any additional administrative costs resulting from this authorization. A \$75 non-refundable base fee will be charged for each new application for an Authority to Construct, Permit to Operate or a Certificate of Registration.

For the purpose of this rule, T+M means time and material; T+RN means time and material plus renewal; the terms "location" and "facility" mean the same as "stationary source" defined in Rule 2 unless otherwise defined by an applicable rule or regulation.

Other charges or refunds, if applicable, shall be as prescribed in Subsections (1) through (9) of this Section (a).

##### **(1) Reduced Fees for Similar Fee Units at a Single Location**

Every applicant for Authorities to Construct and/or Permits to Operate for a series of similar fee units submitted concurrently and located at a single location shall pay the evaluation fee as prescribed in Section (h) for the first fee unit. For each additional unit, the fee shall be based on the actual cost incurred by the District to evaluate and act on the application(s), to be determined by using the labor rates in Schedule 94, and the annual renewal fee listed in Section (h). The actual cost for each unit, including the annual renewal fee, shall not exceed the fee found in Column (1) of the appropriate fee schedule in Section (h) and any additional fees specified by this rule. This subsection shall only apply to the extent that each unit will be operated independently, the evaluation for an Authority to Construct for the first unit can be applied to the additional units because of similarity in design and operation and each unit can be evaluated and inspected for a Permit to Operate at the same time. The provisions of this subsection shall not apply to Fee Schedules 3, 26 and 92.

**(2) Review for Compliance with Rules 20.1 through 20.10, Rules 26.0 through 26.10, Regulation X, Regulation XI, Regulation XII, federal National Emission Standards for Hazardous Air Pollutants (NESHAPs), and state Air Toxic Control Measures (ATCMs).**

The actual cost incurred by the Air Pollution Control District to determine compliance with Rules 20.1 through 20.10, Rules 26.0 through 26.10, Regulation X, Regulation XI or Regulation XII, federal NESHAPs, and state ATCMs shall be paid by the applicant, in addition to other applicable fees prescribed in this rule, if the District evaluation shows that such a determination is required. When notified that such a determination is required, the

applicant shall deposit with the Air Pollution Control District the amount estimated to cover the cost of the determination. The cost shall be determined using the labor rates specified in Schedule 94.

(3) Review for Change of Location

All applications for change of location of an existing permitted article, machine, equipment or other contrivance will be assessed the actual cost incurred by the District to evaluate the change of location, not to exceed the fee found in Column (1) of the appropriate fee schedule less the renewal fee in column (2) previously paid by the applicant. The actual cost incurred shall be determined using the labor rates specified in Schedule 94. In addition, fees as specified in Subsections (a)(2) and (4) shall be paid if appropriate.

(4) Review for Compliance with Rule 51

The actual cost incurred by the Air Pollution Control District to determine compliance with Rule 51 shall be paid by the applicant in addition to other applicable fees prescribed in this rule, if the basic evaluation shows that such a determination is required. When notified that such a determination is required, the applicant shall deposit with the Air Pollution Control District the amount estimated by the District to cover the cost of the determination. The cost shall be determined using the labor rates specified in Schedule 94.

(5) Amendments to an Authority to Construct Application

In accordance with Regulation II, an applicant may request written authorization to alter the proposed design and/or operational characteristics of a specified permit unit before work has begun on the Permit to Operate evaluation. The applicant shall pay the actual cost incurred by the District to evaluate the impact of the alteration not to exceed the value found in Column (1) of the applicable schedule of Section (h). When an additional fee is required, the applicant shall deposit with the Air Pollution Control District the amount estimated to cover the cost of the additional evaluation. The estimate and the actual cost incurred by the District shall be determined using the labor rates specified in Schedule 94. In addition, fees as specified in Subsections (a)(2) and (4) shall be paid if appropriate.

A \$37 processing and handling fee will be charged for each application pursuant to this Subsection (a)(5).

(6) Alteration, Operational Change or Replacement Involving an Existing Permit Unit

Every applicant for an Authority to Construct and/or Permit to Operate involving the alteration of, an addition to, or a change in the permit conditions of any existing article, machine, equipment or other contrivance for which a Permit to Operate has been issued, shall deposit with the Air Pollution Control District the amount estimated to cover the cost of the evaluation. The estimate and the actual cost shall be determined by using the labor rates specified in Schedule 94, not to exceed the value found in Column (1) of the applicable schedule of Section (h).

Replacement of non-identical permit units subject to fixed fees shall be charged the initial fee in Column (1) less Column (2) of the applicable schedule in Section (h), if there is a current permit on the equipment to be replaced. If the non-identical replacement involves an increase in renewal fees due to increased quantity or size, the applicant shall pay the incremental increase in the renewal fee. The increase shall be prorated from the effective date of the revised Permit to Operate until the renewal date established for the original equipment. In addition, fees as specified in Subsections (a)(2) and (4) shall be paid if appropriate.

A \$37 processing and handling fee will be charged for each application pursuant to this Subsection (a)(6).

(7) Reinspection Fees

If, during an inspection for a Permit to Operate, a permit unit cannot be evaluated, due to circumstances beyond the control of the Air Pollution Control District, the applicant shall pay the actual cost of a reinspection. The cost shall be determined using the labor rates specified in Schedule 94.

(8) Refunds, Forfeitures and Insufficient Payment of Fees

If an applicant withdraws an application before an engineering evaluation has been started, a full refund, less the \$75 base fee, shall be made to the applicant upon request.

If an Authority to Construct is denied or cancelled, or if an applicant withdraws an application, the Air Pollution Control District shall refund to the applicant, upon request, so much of the balance remaining of the Authority to Construct and Permit to Operate application fees paid as are in excess of the actual costs and time and materials charges incurred by the Air Pollution Control District prior to the denial, cancellation or withdrawal of the application. The actual costs and time and materials charges incurred shall be based upon the labor rates specified in Schedule 94.

A full refund of fees paid in conjunction with an application for an Authority to Construct and/or Permit to Operate shall be made to the applicant if the article, machine, equipment or other contrivance stated on the application does not come within the purview of state law or these Rules and Regulations.

If the actual cost incurred by the Air Pollution Control District in Subsections (a)(2), (4), (5), (6) and (7) and the applicable T+M portions of Section (h) is less than the amount deposited, the difference shall be refundable to the applicant. If any deposit is insufficient to pay all actual costs, the applicant shall pay an amount deemed sufficient by the Air Pollution Control Officer to complete the work in progress. If the applicant fails or refuses to pay such amount upon demand, the Air Pollution Control District may recover the same by action in any court of competent jurisdiction. Until such amount is paid in full, the Air Pollution Control District shall not further process the Authority to Construct application unless the Air Pollution Control Officer determines that it is in the best interest of all parties concerned to proceed. The Air Pollution Control Officer shall cancel an application when an applicant fails or refuses to pay such amount within 45 days of demand or fails or refuses to pay such amount by the date that Rule 18 requires action be taken on the application, whichever date is sooner.

Where fees were submitted in accordance with Subsection (a)(1) and the applicant is entitled to a refund, the refund for additional units is equal to the annual renewal fee.

An applicant may appeal, directly to the Air Pollution Control Officer, any fee based on actual costs in Subsections (a)(2), (4), (5), (6) and (7) and the applicable T+M portions of Section (h). Such appeal shall be in the form of a letter and shall specifically state the basis of the appeal.

If an applicant has not applied for a refund within six months after notification has been made of eligibility for a refund, all rights to such refund shall be forfeited.

(9) Fee for Failing to Obtain a Permit

When equipment is operated, built, erected, installed, altered or replaced without the owner/operator first obtaining a required Authority to Construct, Permit to Operate or Certificate of Registration, a processing fee shall be charged equal to 150% of the applicable fee set forth in the fee schedules or the applicable fee plus \$300, whichever is less. The assessment of such processing fee shall not limit the District's right to pursue any other remedy provided by law. This section shall not apply if equipment was previously exempt under Rule 11 and the exemption status changes, or if a complete application for equipment registration has been submitted, or if a Certificate of Registration has not been issued for preregistered equipment.

(b) ANNUAL RENEWAL FEES

An annual renewal fee shall be paid in the amount prescribed in Section (h) by any person who is required to apply for annual renewal of a permit or temporary authorization to operate pursuant to Rule 10(h) or Certificate of Registration pursuant to Rules 12 or 12.1. A \$32 fee per site and \$21 fee per permit shall be paid for processing and handling of each annual renewal of a permit or temporary authorization to operate.

(1) In order to effect a staggered renewal schedule as authorized by Rule 10(h), Permits to Operate or Certificates of Registration may be issued or renewed for periods less than 12 months in increments of one month. When the renewal date is changed the renewal fee shall be prorated.

(2) If a permittee certifies to the Air Pollution Control Officer's satisfaction through declaration that payment in full of permit to operate renewal fees would result in undue financial hardship, the District may negotiate an amended fee payment schedule, provided that the amended schedule includes reimbursing the District for any increased costs of processing the extra payments. Failure to make any payments by any negotiated due date may result in penalties as otherwise authorized in Rule 40 and/or cancellation of the permit.

(3) If the Air Pollution Control Officer finds that the activities of any one company would cause an increase of at least ten percent in any specific fee schedule, the Air Pollution Control Officer may delete the cost incurred as a result of that company from the cost data used to determine the fee schedule. A specific fee schedule for the company shall be developed, in this case, to recover the District cost in connection with that company's activities. The specific fee schedule developed in this case shall be submitted to the Air Pollution Control Board for consideration and adoption.

(4) If the Air Pollution Control Officer determines that a person has under-reported material usage, emissions or other information necessary for emissions inventory, and such under-reporting has led to an air contaminant emissions fee less than what would have been due if correct usage, emissions or other information had been reported, then the person shall pay the difference between the original and corrected air contaminant emissions fee plus a charge equal to 30 percent of the difference. Such charge shall not apply if the permittee demonstrates to the Air Pollution Control Officer's satisfaction that the under-reporting was the result of inadvertent error or omission which the permittee took all reasonable steps to avoid. If the amount due is not paid within 60 days of the due date, a late fee equal to 30 percent of the amount due shall be added, and an additional 10 percent added for each subsequent calendar month or portion thereof. In no case shall the late fee exceed 100 percent of the applicable fees.

**(c) TRANSFER OF PERMITS**

An applicant for the transfer of a valid, active Permit(s) to Operate or a Certificate of Registration at a single location from one person to another or for inclusion or removal of any person(s) from the Permit(s) to Operate or a Certificate of Registration shall pay a fee of \$37, and shall supply proof of entitlement to operate provided no alteration, addition, or change in location has been made to the permit item on the application.

If, after an Authority to Construct has been issued and before a Permit to Operate has been granted, another person is designated to be the permittee, that person shall submit an application for Permit to Operate and pay the refundable portion of the initial application fee as determined from Subsection (a)(8) provided that construction will be made in accordance with the Authority to Construct that was previously issued.

**(d) RESERVED**

**(e) RENEWAL OF AN EXPIRED PERMIT TO OPERATE AND REINSTATEMENT OF A RETIRED PERMIT TO OPERATE**

**(1) Renewal of an Expired Permit to Operate**

An applicant for renewal of a Permit to Operate which has expired because of nonpayment of an annual renewal fee shall pay the applicable annual renewal fee as prescribed in Section (h) plus the following late fees if the permit is renewed more than 30 days after the permit expiration date:

(i) 30 percent of the applicable annual renewal fee, not to exceed \$250 beginning the calendar month following the expiration date; and

(ii) 10 percent of the annual renewal fee for each additional calendar month, or portion thereof, until the date the application for renewal is received by the District.

The provisions of this Section (e) are only applicable within the six-month period specified in Rule 10(h) of these Rules and Regulations. Any Permit to Operate not renewed within six months of the date the Permit to Operate expired will be retired.

**(2) Reinstatement of a Retired Permit to Operate**

An applicant for reinstatement of a retired Permit to Operate may request reinstatement within the first six (6) months of retirement by:

(i) Providing the District with a written request to reinstate the retired Permit to Operate.

(ii) Pay an administrative fee in the amount of \$37.

(iii) Pay the prescribed fees as specified in (1) above. In no case shall the late fee exceed 100 percent of the applicable fees.

The applicant shall also pay any relocation, transfer of Permit to Operate, or other fees that may be applicable.

**(f) REQUEST FOR A DUPLICATE**

A fee of \$11 shall be charged for a duplicate of a Permit to Operate or a Certificate of Registration.

**(g) NEW OR MODIFIED POWER PLANTS**

The Air Pollution Control Officer, pursuant to Section 25538 of the Public Resources Code, shall apply for reimbursement of all costs, including lost fees, incurred in order to comply with the provisions of Rule 20.5, Power Plants. Costs shall be determined in accordance with the applicable provisions of this rule.

**(h) EVALUATION FEE SCHEDULES**

Pursuant to Sections (a), (b), (c) and/or (h), fees for evaluation of Authority to Construct, Permit(s) to Operate or Certificate of Registration shall be determined from the fee schedules and Section (r), related emissions fee. Column (1) of the fee schedules is the per unit fee for Authority to Construct, Permit to Operate or Certificate of Registration and the first year's District enforcement after equipment operation is authorized by the District; Column (2) is the annual Permit to Operate or Certificate of Registration per unit renewal fee, and is also applicable to any article, machine, equipment or other contrivance operating pursuant to a temporary authorization to operate, based on the effective date of the first temporary authorization to operate, unless an alternative date is agreed to by the applicant and the Air Pollution Control Officer. Pursuant to Section (r), the appropriate air contaminant emissions fee shall be determined for each permitted stationary source. This fee shall be added to and paid concurrent with the Column (1) fees for new permitted stationary sources, and the Column 2 fees for existing permitted stationary sources, and the aggregate of such fees in addition to fees specified in Sections (a) through (g) shall constitute the total fee to be paid for evaluation of Authority to Construct and Permit(s) to Operate.

Where a fee is for equipment not specified in the fee schedules, the fees will be determined on a case-by-case basis as specified in the miscellaneous fee schedule, Schedule 91. Where an initial Authority to Construct and Permit to Operate fee is not specified in Column (1) of the schedules, the fee shall be the sum of the annual per unit renewal fee specified in Column (2) and the actual Authority to Construct and Permit to Operate evaluation cost determined using the labor rates specified in Schedule 94. Where an annual per unit renewal fee is not specified in Column (2) of the schedules, the fee shall be the sum of the cost determined using the labor rates in Schedule 94 plus the air contaminant emissions fee based on Section (r).

**(i) RESERVED**

**(j) TOXIC AIR CONTAMINANTS FEE**

The owner or operator of a permitted source which emits toxic air contaminants as identified pursuant to the procedures set forth in Sections 39660, 39661, and 39662 of the Health and Safety Code, shall pay an annual fee to the District to cover the anticipated costs of funding District activities mandated by Section 39666 of the Health and Safety Code. The amount of the fee shall be determined on the basis of Time and Materials (T+M) labor rates in accordance with Schedule 94 of this Rule.

**(k) AIR POLLUTION EMERGENCY EPISODE PLAN FEE**

The owner or operator of a facility for which a plan or plan update is required pursuant to Regulation VIII of the Rules and Regulations of the Air Pollution Control District shall pay to the District a fee of \$142 for the evaluation of each plan or plan update for each facility.

The fees required by this rule shall be due at the time the plan is required pursuant to Regulation VIII of the Rules and Regulations of the Air Pollution Control District. If the appropriate fee is not paid within 60 days of the due date, a late fee equal to 30 percent of the applicable fee shall be added. An additional late fee of 10 percent of the applicable fee shall be added for each subsequent calendar month, or portion thereof.

**(l) ASBESTOS DEMOLITION OR RENOVATION OPERATION PLAN**

The owner or operator of a demolition or renovation operation to which Regulation XI Subpart M (NESHAPs) of the Rules and Regulations of the Air Pollution Control District apply, shall pay to the District a fee of \$175 for the evaluation of each required plan (Notice of Intention) to demolish or renovate and \$35 for each revision thereof. A fee of \$37 shall be paid with each notification for demolition where no asbestos is reported present. The owner/operator of an emergency demolition or renovation as defined in Regulation XI Subpart M, Rule 361.141, shall pay to the District a fee of \$250 for the evaluation of each required plan (Notice of Intention) to demolish or renovate.

The fees required by this rule shall be due at the time the asbestos control plan is received pursuant to Regulation XI Subpart M (NESHAPs). Plans or revisions thereof will not be considered received unless accompanied with the required fees.

**(m) AIR TOXICS "HOT SPOTS" PROGRAM**

The owner or operator of a facility who has been identified by the District as being subject to the requirements of Health and Safety Code Section 44300 et seq. (the Air Toxics "Hot Spots" Information and Assessment Act), shall pay all applicable fees, as specified below, to the District within 60 days of receipt of notice by the District of required fees. Failure to submit the fees within 60 days of the notice will result in a late fee equal to 30 percent of the applicable fees, not to exceed \$250. An additional late fee of 10 percent of the applicable fees shall be added for each subsequent calendar month, or portion thereof, the payment of fees is late. In no case shall the late fee exceed 100 percent of the applicable fees.

(1) Each facility owner or operator shall pay an annual District Air Toxics "Hot Spots" program fee as follows:

<u>Facility Type</u>	<u>Annual Fee (\$) / Facility</u>
Complex Facilities	\$3785
Intermediate Facilities	\$1559
Simple II Facilities	\$ 795
Simple I Facilities	\$ 417
Tracking Facilities	\$ 50
Industry-wide Survey Facilities	\$ 30

For the purposes of this section:

(i) Complex facilities are those facilities determined by the District as consisting of more than five different toxic air contaminant emitting processes.

(ii) Intermediate facilities are those facilities determined by the District as consisting of three, four, or five different toxic air contaminant emitting processes.

(iii) Simple II facilities are those facilities determined by the District as consisting of two different toxic air contaminant emitting processes.

(iv) Simple I facilities are those facilities determined by the District as consisting of one toxic air contaminant emitting process.

(v) Tracking facilities are those facilities determined by the District to meet the criteria in Health and Safety Code Section 44344.4, Subsection (b) or which qualify as a "tracking facility" as defined in California Code of Regulations, Title 17, Section 90701, Subsection (ah).

(vi) Industry-wide survey facilities are those facilities identified by the District as subject to the requirements of the Air Toxics "Hot Spots" program and having received an "Industry-wide Emissions Inventory Form" from the District.

(2) The owner or operator of a facility determined by the District to meet the criteria in Health and Safety Code Section 44344.4, Subsection (a), or which qualifies for exclusion from the Air Resources Board (ARB) Fee Schedule pursuant to California Code of Regulations, Title 17, Section 90702, Subsection (c)(2) shall be exempt from fees required by this Section (m).

(3) The owner or operator of a facility identified by the District as subject to any of the following site-specific program requirements shall pay an annual site-specific program fee in addition to the annual fee specified in Subsection (m)(1).

(i) Toxic air contaminant emissions source testing when necessary to determine emissions for inclusion in a toxic air contaminant emissions inventory.

(ii) Public health risk assessment or updated public health risk assessment pursuant to Health and Safety Code Section 44360 et seq. or Rule 1210 of these Rules and Regulations.

(iii) Public notification of public health risks pursuant to Health and Safety Code Section 44362 or Rule 1210 of these Rules and Regulations.

(iv) Facility toxic air contaminant risk reduction audit and plan pursuant to Health and Safety Code Section 44390 or Rule 1210 of these Rules and Regulations.

The amount of the site-specific program fee shall be equal to the actual costs incurred by the District associated with the site-specific program requirements for each affected facility. The costs shall be determined using the labor rates specified in Schedule 94 of this rule.

(4) In addition to the fees specified in Subsections (m)(1), (2) and (3), the owner or operator of a facility subject to the requirements of Health and Safety Code Section 44300 et seq. shall pay an annual fee for the recovery of State program costs. The amount of the annual State program fee for each facility shall be that specified by the ARB in accordance with the State Air Toxics "Hot Spots" Fee Regulation contained in Title 17, California Code of Regulations, Section 90700 et. seq.

(n) **RESERVED**

**(o) CALIFORNIA CLEAN AIR ACT**

The owner or operator of a stationary source who is required by Title 17, California Code of Regulations, Section 90800 et seq. to pay a fee adopted by the Air Resources Board shall pay the required fee to the District within 60 days of receipt of the notice. Failure to submit the fee within 60 days of the notice will result in a late fee equal to 30 percent of the applicable fee. An additional late fee of 10 percent of the applicable fee shall be added for each subsequent calendar month. In no case shall the late fee exceed 100 percent of the fee.

**(p) COOLING TOWER FEES**

The owner or operator of any stationary source for which a plan is required pursuant to Rule 1202 of the Rules and Regulations of the Air Pollution Control District shall pay to the District a fee of \$37 for the evaluation of each plan, as well as \$21 for each cooling tower described in the plan.

The fees required by this rule shall be due at the time the plan is received. If the appropriate fee is not paid within 60 days of the due date, a late fee equal to 30 percent of the applicable fee shall be added to the plan review fee. An additional late fee of 10 percent of the applicable fee shall be added for each subsequent calendar month, or portion thereof.

Whenever the Air Pollution Control Officer finds that it is necessary for the Air Pollution Control District to collect a sample(s) of the cooling tower circulating water for offsite analysis, the cost of analysis shall be paid by the source. The cost shall be equal to the cost determined by using the labor rates specified in Schedules 94 and the actual cost of collection and analysis of the sample(s).

**(q) CERTIFICATION OF EQUIPMENT**

Every applicant who applies for certification of equipment shall deposit with the Air Pollution Control District the amount estimated to cover the cost of review and certification. The estimate and the actual cost shall be determined by using labor rates specified in Schedule 94.

**(r) AIR CONTAMINANT EMISSIONS FEE**

The Air Contaminant Emissions Fee is a single, source-specific fee collected simultaneously with, and considered a part of the per unit application fee(s) from Column (1) of the fee schedules, for the first Permit(s) to Operate at new permitted or registered stationary sources, and the annual renewal per unit fee(s) from Column (2) for existing permitted or registered stationary sources, as specified in Section (h). Except as otherwise provided in this section, no air contaminant emissions fee shall be collected simultaneously with or be considered a part of the application fee for the addition of units to an existing permitted or registered stationary source that has paid an air contaminant emissions fee as part of the most recent renewal of the current Permit(s) to Operate.

For the purposes of this section, the definitions in Rule 20.1 apply. This section applies to both existing and new stationary sources. For new stationary sources, the District shall determine the applicability of Subsections (1) or (2) based upon actual expected air contaminant emissions from the stationary source as estimated by the District, for the calendar year in which the permit to operate for the source is issued. If the actual expected air contaminant emissions of carbon monoxide, oxides of nitrogen, oxides of sulfur, particulate matter (PM<sub>10</sub>) or volatile organic compounds (VOCs) equal or exceed 10 tons for that calendar year, the air contaminant emissions fee shall be based on such expected emissions. This initial fee shall continue until revised to reflect District approved emissions inventory data when such data is available for the stationary source.

(1) The owner or operator of a stationary source from which the emissions of either carbon monoxide, oxides of nitrogen, oxides of sulfur, PM<sub>10</sub> or VOCs equal or exceed 10 tons in the calendar year for which the most recent District approved emissions inventory data exists shall pay a source-specific annual air contaminant emissions fee. The amount of the fee shall be based on the aggregate emissions of carbon monoxide, oxides of nitrogen, oxides of sulfur, PM<sub>10</sub> and VOCs from the stationary source in the calendar year for which the most recent District approved emissions inventory data exists, and an air contaminant emissions fee rate of \$82 per ton.

(2) The owner or operator of a stationary source that is not subject to the source-specific annual air contaminant emissions fee prescribed in Subsection (1) above, shall pay an annual source category emissions fee. The amount of the fee shall be as follows, based on the fee schedule that is most representative of the nature of the activities at the stationary source:

<u>Source Category Description</u>	<u>Fee Schedule</u>	<u>Annual Emissions Fee</u>
VOC dispensing facility - Phase I and Phase II controls required	26(a)	\$9 per dispensing nozzle
Contract service remote reservoir cleaners with 100 or more units	28(k)	\$4.6 per cleaning unit
Industrial surface coating/adhesives applications (5 or more tons/year)	27(e)	\$410
Metal parts and aerospace coating applications (5 or more tons/year)	27(k)	\$410
Wood product coating applications w/o controls (5 or more tons/year)	27(m)	\$410
Automotive painting operations (applying more than 5 gallons/day)	27(s)	\$246
Adhesive Application Operations (5 or more tons/year)	27(v)	\$394
All other stationary sources	various	\$ 41

Where more than one source category description or fee schedule applies, and it cannot be determined which is most representative of the nature of the activities at a stationary source, the single source category description or fee schedule that results in the maximum annual emissions fee shall apply for purposes of this section.

#### (s) TITLE V OPERATING PERMIT FEES

The owner or operator of a stationary source for which a federal operating permit is required pursuant to Regulation XIV (Title V Operating Permits) of these Rules and Regulations shall pay a fee sufficient to recover the actual costs incurred by the Air Pollution Control District to review, evaluate and act upon applications for enhanced Authorities to Construct initial permits, permit amendments, permit modifications, permit revisions, permit reopening and permit renewals. The costs shall be determined using the labor rates specified in Schedule 94, except that the costs associated with annual permit renewals shall be determined using the labor rates specified in Schedule 94. When required to apply for an initial Title V permit pursuant to Regulation XIV, the owner or operator of a stationary source shall pay an additional base fee of \$2200 for each stationary source, plus the cost recovery fee specified above.

The Title V operating permit fee shall be in addition to other applicable fees prescribed in this rule. The actual costs shall be the additional costs that the Air Pollution Control Officer determines are not otherwise recovered by other applicable fees prescribed in this rule. When required to submit an application for, or regarding, a Title V operating permit, the applicant shall deposit with the Air Pollution Control District the amount estimated to cover the cost of reviewing, evaluating and acting upon the application.

(t) **RESERVED**

## INDEX OF FEE SCHEDULES

### SCHEDULE 1: Abrasive Blasting Equipment Excluding Rooms and Booths

- (a) Pot 100 Pounds Capacity or Larger with no Peripheral Equipment
- (b) Pot 100 Pounds Capacity or Larger Loaded Pneumatically or from Storage Hoppers
- (c) Bulk Abrasive Blasting Material Storage System
- (d) Spent Abrasive Handling System
- (x) Portable Abrasive Blasting Unit, Registration Under Rule 12.1

### SCHEDULE 2: Abrasive Blasting Cabinets, Rooms and Booths

- (a) Abrasive Blasting Cabinet, Room or Booth
- (b) Cabinet, Room or Booth with an Abrasive Transfer or Recycle System

### SCHEDULE 3: Asphalt Roofing Kettles and Tankers used to Store Heat, Transport, and Transfer Hot Asphalt

- (a) Kettle or Tanker with Capacity Greater than 85 Gallons
- (b) Kettle or Tanker with Capacity Greater than 85 Gallons and Requiring Emission Control Equipment
- (w) Asphalt Roofing Kettles and Tankers, Registration Under Rule 12
- (z) Asphalt Roofing Kettles and Tankers, Registration Under Rule 12, Conversion from Valid Permit

### SCHEDULE 4: (a) Hot-Mix Asphalt Paving Batch Plants (z) Hot-Mix Asphalt Batch Plant (98-99 only)

### SCHEDULE 5: Rock Drills

- (a) Drill with Water Controls
- (b) Drill with Controls other than Water
- (w) Drill, Registration Under Rule 12
- (z) Drill, Registration Under Rule 12, Conversion from Valid Permit

### SCHEDULE 6: Sand, Rock, and Aggregate Screens, when not used in Conjunction with other Permit Items in these Schedules

- (a) Screen Set
- (x) Portable Sand and Gravel Screen, Registration Under Rule 12.1
- (z) Screen Set (98-99 only)

### SCHEDULE 7: Sand, Rock, and Aggregate Plants

- (a) Crusher System
- (b) Screening System
- (c) Loadout System
- (d) Aggregate Dryer System
- (x) Portable Rock Crushing System, Registration Under Rule 12.1
- (y) Crusher System (98-99 only)
- (z) Screening System (98-99 only)

**SCHEDULE 8: Concrete Batch Plants, Concrete Mixers Over One Cubic Yard Capacity and Separate Cement Silo System.**

- (a) Concrete Batch Plant (including Cement-Treated Base Plants)
- (b) Mixer over One Cubic Yard Capacity
- (c) Cement or Fly Ash Silo System not part of another system requiring a permit
- (x) Portable Concrete Batch Plant, Registration Under Rule 12.1
- (z) Concrete Batch Plant (98-99 only)

**SCHEDULE 9: Concrete Product Manufacturing Plants**

**SCHEDULE 10: Brick Manufacturing Plants**

- (a) Clay Batching and Extruding System
- (b) Crusher-Screen System
- (c) Kiln

**SCHEDULE 11: Tire Buffers**

**SCHEDULE 12: Fish Canneries and Smoke Houses**

- (a) Dryer (also called Meal Drying and Grinding System)
- (b) Precooker
- (c) Vat and Vibrating Screen System
- (d) Scrap Cooker and Grinder System
- (e) Cooker
- (f) Dry Pet Food Processing System
- (g) Digester Tank
- (h) Smoke House
- (i) Loadout System

**SCHEDULE 13: Boilers and Heaters**

- (a) 1 MM BTU/HR up to but not including 50 MM BTU/HR Input
- (b) 50 MM BTU/HR up to but not including 250 MM BTU/HR Input
- (c) 250 MM BTU/HR up to 1050 MM BTU/HR Input or up to but not including 100 Megawatt Gross Output whichever is Greater (Based on an Average Boiler Efficiency of 32.5%)
- (d) 100 Megawatt Gross Output or Greater (Based on an Average Boiler Efficiency of 32.5%)
- (e) RESERVED
- (f) 1 MM BTU/HR up to but not including 50 MM BTU/HR Input at a Single Site where more than 5 such Units are Located
- (g) Notice of Intention - 250 MM BTU/HR up to 1050 BTU/HR or up to but not including 100 Megawatt Output
- (h) Notice of Intention - Each 100 Megawatt Output or Greater

**SCHEDULE 14: Non-Municipal Incinerators**

- (a) Waste Burning Capacity up to and including 100 LBS/HR
- (b) Waste Burning Capacity Greater than 100 LBS/HR
- (c) Burning Capacity up to and including 50 LBS/HR used exclusively for the Incineration or Cremation of Animals
- (d) Emission Controls or Modifications

**SCHEDULE 15: Burn Out Ovens**

- (a) Electric Motor/Armature Refurbishing Oven
- (b) Wire Reclamation Oven
- (c) IC Engine Parts Refurbishing Unit
- (z) Navy: Burn Out IC Engine Parts (98-99 Only)

**SCHEDULE 16: Core and Plastics Annealing/Softening Ovens**

- (a) Core Oven
- (b) Plastic Annealing/Softening Ovens

**SCHEDULE 17: Brake Debonders**

**SCHEDULE 18: Metal Melting Devices**

- (a) Sweat Furnace
- (b) Electric Arc Furnace
- (c) Pit or Stationary Crucible
- (d) Pot Furnace
- (e) Induction Furnace
- (f) Cupola
- (g) Reverberatory Furnace
- (h) Brass Metal Melting Furnace - U.S. Navy
- (z) Navy: Metal Induction Furnace (98-99 Only)

**SCHEDULE 19: Oil Quenching and Salt Baths**

**SCHEDULE 20: Gas Turbine Engines, Test Cells and Test Stands**

**GAS TURBINE, TURBOSHAFT, TURBOJET & TURBOFAN ENGINE  
TEST CELLS AND STANDS**

- (a) Aircraft Propulsion Turbine, Turboshaft, Turbojet or Turbofan Engine Test Cell or Stand
- (b) Aircraft Propulsion Test Cell or Stand at a Facility where more than one such Unit is located
- (c) Non-Aircraft Turbine Test Cell or Test Stand

**SCHEDULE 20: continued**

**GAS TURBINE ENGINES**

- (d) Non-Aircraft Turbine Engine 1 MM BTU/HR up to but not including 50 MM BTU/HR input
- (e) Non-Aircraft Turbine Engine 50 MM BTU/HR up to but not including 250 MM BTU/HR input
- (f) Non-Aircraft Turbine Engine 250 MM BTU/HR or greater input
- (g) Unit used solely for Peak Load Electric Generation
- (h) Standby Gas Turbines used for Emergency Power Generation

**SCHEDULE 21: Waste Disposal and Reclamation Units**

- (a) Paper or Wood Shredder or Hammermill Grinder
- (b) Metal Shredder
- (c) Garbage and Refuse Shredder
- (d) Air Classifier
- (e) Dryer

**SCHEDULE 22: Feed and Grain Mills and Kelp Processing Plants**

- (a) Receiving System (includes Silos)
- (b) Grinder, Cracker, or Roll Mill
- (c) Shaker Stack, Screen Sc., Pelletizer System, Grain Cleaner, or Hammermill
- (d) Mixer System
- (e) Truck or Rail Loading System
- (z) Kelco: Feed Receiving Systems (Silos) (98-99 Only)  
Shaker, Screen, Pelletizer, Hammer (98-99 Only)  
Mixer System (98-99 Only)

**SCHEDULE 23: Bulk Terminal Grain and Dry Chemical Transfer and Storage Facility Equipment**

- (a) Receiving System (Railroad, Ship and Truck Unloading)
- (b) Storage Silo System
- (c) Loadout Station System
- (d) Belt Transfer Station

**SCHEDULE 24: Dry Chemical Mixing and Detergent Spray Towers**

- (a) Grain Mixing System (Includes Receiving, Transfer, Mixing or Blending, Storage, and Loadout Bagging)
- (b) Detergent Spray Tower
- (c) Dry Chemical Mixers with capacity over One-Half Cubic Yard

**SCHEDULE 25: Volatile Organic Compound Terminals, Bulk Plants and Intermediate Refueler Facilities**

**PART 1 - BULK PLANTS AND BULK TERMINALS EQUIPPED WITH OR PROPOSED TO BE EQUIPPED WITH A VAPOR PROCESSOR**

- (a) Per Tank
- (b) Tank Rim Seal Replacement
- (c) Per Truck Loading Head
- (d) Per Vapor Processor

**PART 2 - BULK PLANTS NOT EQUIPPED WITH OR NOT PROPOSED TO BE EQUIPPED WITH A VAPOR PROCESSOR**

- (e) Per Tank
- (f) Per Truck Loading Head
- (g) RESERVED

**PART 3 - FACILITIES FUELING INTERMEDIATE REFUELERS (IR) FOR SUBSEQUENT FUELING OF MOTOR VEHICLES, BOATS OR AIRCRAFT**

- (h) Per IR Loading Connector

**SCHEDULE 26: Non-Bulk Volatile Organic Compound Dispensing Facilities Subject to District Rules 61.0 thru 61.6**

- (a) Phase I and Phase II Vapor Recovery Facility
- (b) Replacement or Addition of Tanks at a Permitted Facility
- (c) Facilities where only Phase I controls are required
- (d) Addition of Nozzles at Permitted Facilities where Phase II is required
- (e) Non-Retail Facilities with 250-550 Gallon Tanks and no other Non-Bulk Gasoline Dispensing Permits
- (f) Phase II Bootless or Mini-Booted Nozzles Vacuum Assist Systems Facility

**SCHEDULE 27: Application of Materials Containing Organic Solvents (includes coatings, adhesives, and other materials containing volatile organic compounds (VOC))**

**PART 1 - MARINE COATINGS**

- (t) Marine Coating Application at Facilities where combined coating and cleaning solvents usage is < 3 gallons/day and <100 gallons/year
- (a) Marine Coating Application at Facilities emitting < 10 tons/year of VOC from Marine Coating Operations
- (b) Marine Coating Application at Facilities emitting  $\geq$  10 tons/year of VOC from Marine Coating Operations
- (c) Each additional Marine Coating Permit Unit

**PART 2 - INDUSTRIAL MATERIAL APPLICATIONS and MANUFACTURING**

- (d) Surface Coating Application Station using > 1 gallon/day without Control Equipment and not covered by other Fee Schedules at Facilities emitting < 5 tons/year

## SCHEDULE 27 - continued

### PART 2: continued:

- (e) Surface Coating Application Station without Control Equipment and not covered by other Fee Schedules at Facilities emitting  $\geq 5$  tons/year
- (f) Fiberglass, Plastic or Foam Product Process Line at Facilities emitting  $< 10$  tons/year from these types of Operations
- (g) Fiberglass, Plastic or Foam Product Process Line at Facilities emitting  $\geq 10$  tons/year from these types of Operations
- (h) RESERVED
- (i) Surface Coating Application Station requiring Control Equipment
- (j) Surface Coating Application Station Subject to Rules 67.3 or 67.9 without Control Equipment at Facilities emitting  $< 5$  tons/year
- (k) Surface Coating Application Station Subject to Rules 67.3 or 67.9 without Control Equipment at Facilities emitting  $\geq 5$  tons/year
- (l) Wood Products Coating Application Station without Control Equipment at Facilities emitting  $< 5$  tons/year and using  $> 500$  gallons/year
- (m) Wood Products Coating Application Station without Control Equipment at Facilities emitting  $\geq 5$  tons/year
- (n) Press or Operation at a Printing or Graphic Arts Facility Subject to Rule 67.16
- (o) Union Tribune Publishing Graphic Arts Operation
- (p) Surface Coating Application Station without Control Equipment where combined coating and cleaning solvent usage is  $< 1$  gallon/day or  $\leq 50$  gallons/year
- (q) Wood Products Coating Application Station without Control Equipment at Facilities using  $\leq 500$  gallons/year

### PART 3 - AUTOMOTIVE PAINTING

- (r) Facility applying  $< 5$  gallons/day of Coating Materials Subject to Rule 67.20 (as applied or sprayed)
- (s) Facility applying  $\geq 5$  gallons/day of Coating Materials Subject to Rule 67.20 (as applied or sprayed)

### PART 4 - ADHESIVE MATERIALS APPLICATION OPERATIONS

- (u) Adhesive Materials Application Station without Control Equipment at Facilities emitting  $< 5$  tons/year of VOC
- (v) Adhesive Materials Application Station without Control Equipment at Facilities emitting  $\geq 5$  tons/year of VOC
- (w) Adhesive Materials Application Station without Control Equipment using  $< 55$  gallons/year of Adhesive Materials

**SCHEDULE 28: Vapor and Cold Solvent Cleaning Operations and Metal Inspection Tanks**

- (a) Vapor Degreaser (> 5 sq. ft.)
- (b) Cold Solvent Degreaser (> 5 sq. ft.)
- (c) Corrosion Control Carts
- (d) Paint Stripping Tanks
- (e) Vapor Phase Solder Reflow Unit
- (f) Remote Reservoir Cleaners
- (g) RESERVED
- (h) Vapor Degreaser (< 5 sq. ft.)
- (i) Cold Solvent Degreaser (< 5 sq. ft.)
- (j) Metal Inspection Tanks
- (k) Contract Service Remote Reservoir Cleaners
- (l) Small Contract Service Cold Degreasers (< 5 sq. ft.)
- (m) Facility-Wide Solvent Application Operations
- (n) RESERVED

**SCHEDULE 29: Solder Levelers and Hydrosqueegees**

**SCHEDULE 30: Kelp and Biogum Products Solvent Dryer**

**SCHEDULE 31: Dry Cleaning Facilities**

- (a) Facility using Halogenated Hydrocarbon Solvents required to install Control Equipment
- (b) Facility using Petroleum Based Solvents
- (c) Facility using Solvents not required to install Control Equipment
- (d) RESERVED

**SCHEDULE 32: Acid Chemical Milling, Copper Etching and Hot Dip Galvanizing**

- (a) Copper Etching Tank
- (b) Acid Chemical Milling Tank
- (c) Hot Dip Galvanizing Tank
- (z) Herco: Copper Etching Tank (98-99 Only)

**SCHEDULE 33: Can and Coil Manufacturing and Coating Operations**

- (a) Process Line Applying  $\geq 1000$  Gallons/Year
- (b) Research and Development Coil Coating Line
- (c) Process Line Applying < 1000 Gallons Per Year
- (z) Napp: Process Line Applying > 1000 Gallons/Year (98-99 Only)

**SCHEDULE 34: Piston Type Internal Combustion Engines**

- (a) Cogeneration Engine with In-Stack Emission Controls
- (b) Cogeneration Engine with Engine Design Emission Controls
- (c) Emergency Standby Engine (for electrical or fuel interruptions beyond control of Permittee)
- (d) Engine for Non-Emergency and Non-Cogeneration Operation
- (e) Grouping of Engines ( $\geq 200$  Horsepower) for Dredging or Crane Operation
- (f) Diesel Pile-Driving Hammer
- (g) Engine for Non-Emergency and Non-Cogeneration Operation ( $< 200$  Horsepower)
- (w) Specific Eligible Engines, Registration Under Rule 12
- (x) Specific Eligible Portable Engines, Registration Under Rule 12.1
- (z) Specific Eligible Engines, Registration Under Rule 12, Conversion from Valid Permit

**SCHEDULE 35: Bulk Flour, Powered Sugar and Dry Chemical Storage System**

**SCHEDULE 36: Grinding Booths and Rooms**

**SCHEDULE 37: Plasma Electric and Ceramic Deposition Spray Booths**

**SCHEDULE 38: Paint, Stain, Ink, Solder Paste, and Dielectric Paste Manufacturing**

- (a) Paint, Stain or Ink Manufacturing Lines Producing  $\geq 10,000$  Gallons
- (b) Can Filling Lines
- (c) Each Process Line for Solder Paste or Dielectric Paste Manufacturing
- (d) Paint, Stain or Ink Manufacturing Lines Producing  $< 10,000$  Gallons

**SCHEDULE 39: Precious Metals Refining**

**SCHEDULE 40: Asphalt Pavement Heaters/Recyclers**

- (a) Processor
- (x) Portable Unheated Pavement Crushing and Recycling System, Registration Under Rule 12.1

**SCHEDULE 41: Perlite Processing**

**SCHEDULE 42: Electronic Component Manufacturing**

- (a) Electronic Manufacturing Operations
- (b) Electronic Manufacturing Screen Printing
- (c) Electronic Manufacturing Coating/Maskant Application Excluding Conformal Operations
- (d) Electronic Manufacturing Conformal Coating
- (e) Electronic Manufacturing Facility-wide Solvent Application
- (z) Herco: Screening Printing Operations (98-99 Only)

**SCHEDULE 43: Ceramic Slip Casting**

**SCHEDULE 44: Evaporators, Dryers, & Stills Processing Organic Materials**

- (a) Evaporators and Dryers
- (b) Solvent Recovery Stills

**SCHEDULE 45: Rubber Mixers**

**SCHEDULE 46: Reverse Osmosis Membrane Manufacturing**

**SCHEDULE 47: Organic Gas Sterilizers**

- (a) Organic Gas Sterilizers requiring control
- (b) Stand Alone Organic Gas Aerator requiring control
- (c) Organic Gas Sterilizer not requiring control
- (d) Stand Alone Organic Gas Aerator not requiring control

**SCHEDULE 48: Municipal Waste Storage and Processing**

- (a) Sanitary Landfill
- (b) Temporary Storage and/or Transfer Station
- (c) Landfill Gas Flare or Containment System
- (d) Municipal Waste Incinerator
- (e) North County Resource Recovery

**SCHEDULE 49: (a) Non-Operational Status Equipment**  
**(b) Activating Non-Operational Status Equipment**

**SCHEDULE 50: Coffee Roasters**

**SCHEDULE 51: Industrial Waste Water Treatment**

- (a) Processing Line - Onsite
- (b) Processing Line - Offsite

**SCHEDULE 52: Air Stripping and Soil Remediation Equipment**

- (a) Air Stripping Equipment
- (b) Soil Remediation Equipment - Onsite
- (c) Soil Remediation Equipment - Offsite

**SCHEDULE 53: Lens Casting Equipment**

- (a) Lens Casting Equipment
- (b) Lens Coating Equipment

**SCHEDULE 54: Pharmaceutical Manufacturing**

- (a) Pharmaceutical Manufacturing
- (b) Protein Synthesis Employing Solvents

**SCHEDULE 55: Hexavalent Chromium Plating & Chromic Acid Anodizing**

- (a) Emissions Collection System serving one or more Plating and/or Anodizing Tank(s)
- (b) Decorative Plating Tank(s) Only
- (c) Hard Chrome Plating or Chromic Acid Tank

**SCHEDULE 56: Sewage Treatment Facilities**

- (a) Sewage Treatment Facility
- (b) Wastewater Odor Treatment System that is not part of a Permitted Sewage Treatment Facility
- (c) Sewage Sludge Composting Facility

**SCHEDULE 57: Laundry Facilities Processing Material Containing Organic Compounds**

**SCHEDULE 58: Bakeries**

**SCHEDULE 59 through 90, RESERVED**

**SCHEDULE 91: Miscellaneous - Hourly rates**

**SCHEDULE 92: Source Testing Done by the District**

- (a) Particulate Matter Source Test
- (b) Oxides of Nitrogen Source Test
- (c) Oxides of Sulfur Source Test
- (d) Hydrocarbon Vapor Processor Test
- (e) Observation and Reporting of Odor Panel Test
- (f) Carbon Monoxide Source Test (continuous analyzer)
- (g) Oxides of Nitrogen Source Test (continuous analyzer)
- (h) Incinerator Particulate Matter Source Test (excluding quadrennial source test in Fee Schedule 14(a))
- (i) Ammonia Slippage Source Test
- (j) Continuous Emission Monitor Evaluation

**SCHEDULE 92: continued**

- (k) Kelco: VOC Source Test
- (l) VOC Outlet Source Test
- (m) Mass Emissions Source Test
- (n) Ethylene Oxide Test Witness
- (o) Multiple Metals Source Test
- (p) Chromium Source Test
- (q) VOC Onsite Analysis
- (r) VOC Offsite Analysis
- (s) Hydrogen Sulfide Source Test
- (t) Acid Gases Source Test
- (z) Micellaneous Source Test (Special Tests not Listed)

**SCHEDULE 93: Observations and Evaluations of Source Testing Performed by Private Companies**

- (a) Observations
- (b) Source Test Reports
- (c) Test Procedure Review

**SCHEDULE 94: Time and Material (T+M) Labor Rates**

**SCHEDULE 95: Sampling and Analysis of Architectural Coatings**

**SCHEDULE 96: Additional Costs incurred by Non-Compliance Sources**

**SCHEDULE 97: Other Charges**

## **FEE SCHEDULES**

The following Fee Schedules do not include the Emission Fee component of the fee. To determine the total fee to be paid, add the amount in Column (1) or Column (2), as appropriate, for each permitted fee unit to the air contaminant emissions fee for the facility, based on Rule 40(r).

### **SCHEDULE 1: Abrasive Blasting Equipment Excluding Rooms and Booths**

Any permit unit consisting of air hoses, with or without water lines, with a single pot rated at 100 pounds capacity or more of sand regardless of abrasive used, and a nozzle or nozzles. (Equipment not operated solely in Schedule 2 facilities).

Fee Unit	Initial A/C-P/O Fees	Renewal
	(1)	(2)
(a) Each Pot 100 pounds capacity or larger with no Peripheral Equipment	\$440	\$ 64
(b) Each Pot 100 pounds capacity or larger loaded Pneumatically or from Storage Hoppers	T+RN	\$ 64
(c) Each Bulk Abrasive Blasting Material Storage System	\$1059	\$ 30
(d) Each Spent Abrasive Handling System	T+RN	\$ 88
(x) Each Portable Abrasive Blasting Unit, Registration Under Rule 12.1	\$200	\$150

### **SCHEDULE 2: Abrasive Blasting Cabinets, Rooms and Booths**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Abrasive Blasting Cabinet, Room or Booth	\$1203	\$ 98
(b) Each Cabinet, Room, or Booth with an Abrasive Transfer or Recycle System	T+RN	\$180

### **SCHEDULE 3: Asphalt Roofing Kettles and Tankers used to Store, Heat, Transport, and Transfer Hot Asphalt**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Kettle or Tanker with capacity greater than 85 gallons	\$687	\$ 55
(b) Each Kettle or Tanker with capacity greater than 85 gals. and requiring emission control equipment	T+RN	\$152
(w) Each Kettle or Tanker, Registration Under Rule 12	\$166	\$ 44
(z) Each Kettle or Tanker, Registration Under Rule 12, Conversion from Valid Permit	\$142	N/A

**SCHEDULE 4: Hot-Mix Asphalt Paving Batch Plant**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Hot Mix Asphalt Paving Batch Plant	T+RN	\$602
(z) Each Hot Mix Asphalt Batch Plant (98-99 only)		\$534

**SCHEDULE 5: Rock Drills**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Drill with water controls	\$803	\$ 56
(b) Each Drill with controls other than water	T+RN	\$ 60
(w) Each Drill, Registration Under Rule 12	\$166	\$ 44
(z) Each Drill, Registration Under Rule 12, Conversion from Valid Permit	\$142	N/A

**SCHEDULE 6: Sand, Rock, and Aggregate Screens and other screening operations, when not used in conjunction with other Permit Items in these Schedules**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Screen Set	\$1155	\$140
(x) Each Portable Sand and Gravel Screen Set, Registration Under Rule 12.1	\$ 200	\$150
(z) Each Screen Set (98-99 only)		\$216

**SCHEDULE 7: Sand, Rock, and Aggregate Plants**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Crusher System (involves one or more primary crushers forming a primary crushing system or, one or more secondary crushers forming a secondary crusher system and each serving a single process line)	T+RN	\$215
(b) Each Screening System (involves all screens serving a given primary or secondary crusher system)	T+RN	\$ 40
(c) Each Loadout System (a loadout system is a set of conveyors chutes and hoppers used to load any single rail or road delivery container at any one time)	T+RN	\$ 30
(d) Each Aggregate Dryer System	T+RN	\$ 8
(x) Each Portable Rock Crushing System, Registration Under Rule 12.1	\$200	\$150
(y) Each Crusher System (98-99 only)		\$215
(z) Each Screening System (98-99 only)		\$233

**SCHEDULE 8: Concrete Batch Plants, Concrete Mixers over One Cubic Yard Capacity and Separate Cement Silo Systems**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Concrete Batch Plant (including Cement-Treated Base Plants)	T+RN	\$177
(b) Each Mixer over one cubic yard capacity	T+RN	\$ 57
(c) Each Cement or Fly Ash Silo System not part of another system requiring a Permit	T+RN	\$ 96
(x) Each Portable Concrete Batch Plant, Registration Under Rule 12.1	\$200	\$150
(z) Each Concrete Batch Plant (98-99 only)		\$165

**SCHEDULE 9: Concrete Product Manufacturing Plants**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Plant	T+RN	\$131

**SCHEDULE 10: Brick Manufacturing Plants**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Clay Batching and Extruding System	T+RN	T+M
(b) Each Crusher-Screen System	T+RN	T+M
(c) Each Kiln	T+RN	T+M

**SCHEDULE 11: Tire Buffers**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Buffer	T+RN	\$108

**SCHEDULE 12: Fish Canneries and Smoke Houses**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Dryer (Meal Drying and Grinding System)	T+RN	T+M
(b) Each Precooker	T+RN	T+M
(c) Each Vat and Vibrating Screen System	T+RN	T+M
(d) Each Scrap Cooker and Grinder System	T+RN	T+M
(e) Each Cooker	T+RN	T+M
(f) Each Dry Pet Food Processing System	T+RN	T+M
(g) Each Digester Tank	T+RN	T+M
(h) Each Smoke House	T+RN	\$142
(i) Each Loadout System	T+RN	T+M

**SCHEDULE 13: Boilers and Heaters**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each 1 MM BTU/HR up to but not including 50 MM BTU/HR input	\$1584	\$141
(b) Each 50 MM BTU/HR up to but not including 250 MM BTU/HR	T+RN	\$278
(c) Each 250 MM BTU/HR up to 1050 MM BTU/HR input or up to but not including 100 Megawatt gross output whichever is greater (based on an average boiler efficiency of 32.5%)	T+RN	T+M
(d) Each 100 Megawatt output or greater (based on an average boiler efficiency of 32.5%)	T+RN	\$2228
(e) RESERVED		
(f) Each Unit 1 MM BTU/HR up to but not including 50 MM BTU/HR input at a single site where more than 5 such units are located	\$1363	\$ 26
(g) Each 250 MM BTU/HR up to 1050 MM BTU/HR input or up to but not including 100 Mega-watt gross output, whichever is greater, where a Notice of Intention has been filed with the California Energy Commission	T+RN	T+M
(h) Each 100 Megawatt gross output or greater where a Notice of Intention has been filed with the California Energy Commission	T+RN	T+M

**SCHEDULE 14: Non-Municipal Incinerators**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Waste burning capacity up to & including 100 lbs/hr*	T+RN	\$1613
(b) Waste burning capacity greater than 100 lbs/hr	T+RN	\$ 358
(c) Burning capacity up to and including 50 lbs/hr used exclusively for the incineration or cremation of animals	T+RN	\$ 256
(d) Emission Controls or Modification for ATCM	T+RN	N/A

\*Excluding incinerators of 50 lbs/hr capacity or less used exclusively for incineration or cremation of animals. Renewal fee for 14(a) includes quadrennial incinerator particulate matter source test costs.

**SCHEDULE 15: Burn-Out Ovens**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Electric Motor/Armature Refurbishing Oven	T+RN	\$ 94
(b) Each Wire Reclamation Oven	T+RN	T+M
(c) Each IC Engine Parts Refurbishing Unit	T+RN	\$ 56
(z) Navy: Burn Out IC Engine Parts (98-99 Only)		\$7917

**SCHEDULE 16: Core and Plastics Annealing/Softening Ovens**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Core Oven	T+RN	\$216
(b) Each Plastic Annealing/Softening Ovens	T+RN	T+M

**SCHEDULE 17: Brake Debonders**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
Each Brake Debonder	T+RN	T+M

**SCHEDULE 18: Metal Melting Devices**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(a) Each Sweat Furnace	T+RN	T+M
(b) Each Electric Arc Furnace	T+RN	T+M
(c) Each Pit or Stationary Crucible	T+RN	\$126
(d) Each Pot Furnace	T+RN	\$ 99
(e) Each Induction Furnace	T+RN	\$131
(f) Each Cupola	T+RN	T+M
(g) Each Reverberatory Furnace	T+RN	T+M
(h) Brass Metal Melting Furnace - U.S. Navy	T+RN	T+M
(z) Navy: Metal Induction Furnace (98-99 Only)		\$7179

**SCHEDULE 19: Oil Quenching and Salt Baths**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
Each Tank	T+RN	\$ 67

**SCHEDULE 20: Gas Turbine Engines, Test Cells and Test Stands**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
<b>GAS TURBINE, TURBOSHAFT, TURBOJET AND TURBOFAN ENGINE TEST CELLS AND STANDS</b>		
(a) Each Aircraft Propulsion Turbine, Turboshaft, Turbojet or Turbofan Engine Test Cell or Stand	T+RN	\$ 344
(b) Each Aircraft Propulsion Test Cell or Stand at a facility where more than one such unit is located	T+RN	\$ 110
(c) Each Non-Aircraft Turbine Test Cell or Stand	T+RN	\$ 35
<b>GAS TURBINE ENGINES</b>		
(d) Each Non-Aircraft Turbine Engine 1 MM BTU/HR up to but not including 50 MM BTU/HR input	T+RN	\$ 303
(e) Each Non-Aircraft Turbine Engine 50 MM BTU/HR up to but not including 250 MM BTU/HR input	T+RN	\$1709
(f) Each Non-Aircraft Turbine Engine 250 MM BTU/HR or greater input	T+RN	\$1044
(g) Each Unit used solely for Peak Load Electric Generation	T+RN	\$ 108
(h) Each Standby Gas Turbine used for Emergency Power Generation	T+RN	\$ 34

**SCHEDULE 21: Waste Disposal and Reclamation Units**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Paper or Wood Shredder or Hammermill Grinder	T+RN	\$307
(b) Each Metal Shredder	T+RN	T+M
(c) Each Garbage & Refuse Shredder	T+RN	T+M
(d) Each Air Classifier	T+RN	T+M
(e) Each Dryer	T+RN	T+M

**SCHEDULE 22: Feed and Grain Mills and Kelp Processing Plants**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Receiving System (includes Silos)	T+RN	\$451
(b) Each Grinder, Cracker, or Roll Mill	T+RN	\$ 78
(c) Each Shaker Stack, Screen Set, Pelletizer System, Grain Cleaner, or Hammermill	T+RN	\$ 55
(d) Each Mixer System	T+RN	\$ 58
(e) Each Truck or Rail Loading System	T+RN	\$ 60
(z) Kelco (98-99 Only):		\$26,312
Feed Receiving Systems (Silos) [\$7110]		
Shaker, Screen, Pellitizer, Hammermill [\$12,429]		
Mixer System [\$6773]		

**SCHEDULE 23: Bulk Terminal Grain and Dry Chemical Transfer and Storage Facility Equipment**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Receiving System (Railroad, Ship and Truck Unloading)	T+RN	\$271
(b) Each Storage Silo System	T+RN	\$156
(c) Each Loadout Station System	T+RN	\$ 44
(d) Each Belt Transfer Station	T+RN	\$ 37

**SCHEDULE 24: Dry Chemical Mixing and Detergent Spray Tower**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
(a) Each Grain Mixing System (includes receiving, transfer, mixing or blending, storage, and loadout bagging)	T+RN	\$260
(b) Each Detergent Spray Tower	T+RN	T+M
(c) Each Dry Chemical Mixer with capacity over one-half cubic yard	T+RN	\$117

**SCHEDULE 25: Volatile Organic Compound Terminals, Bulk Plants and Intermediate Refueler Facilities**

Fee Unit	Initial Fees	Renewal
	(1)	(2)
1. Bulk Plants and Bulk Terminals equipped with or proposed to be equipped with a vapor processor:		
(a) Per Tank	T+RN	\$ 461
(b) Tank Rim Seal Replacement	T+RN	N/A
(c) Per Truck Loading Head	T+RN	\$ 87
(d) Per Vapor Processor	T+RN	\$1724
2. Bulk Plants not equipped with or not proposed to be equipped with a vapor processor:		
(e) Per Tank	T+RN	\$ 37
(f) Per Truck Loading Head	T+RN	\$ 19
(g) RESERVED		

"Vapor Processor" means a device which recovers or transforms volatile organic compounds by condensation, refrigeration, adsorption, absorption, incineration, or any combination thereof.

3. Facilities fueling intermediate refuelers (IR's) for subsequent fueling of motor vehicles, boats, or aircraft:

(h) Per IR Loading Connector	T+RN	\$ 37
------------------------------	------	-------

If a facility falls into Parts 1, 2 or 3 above and is equipped with dispensing nozzles for which Phase II vapor controls are required, additional fees equivalent to the "per nozzle" fees for Schedule 26(a) shall be assessed for each dispensing nozzle.

**SCHEDULE 26: Non-Bulk Volatile Organic Compound Dispensing Facilities**  
Subject to District Rules 61.0 through 61.6

Fee Unit	Initial Fees (1)	Renewal (2)
(a) INITIAL INSTALLATIONS AND TOTAL RENOVATIONS WHERE PHASE I AND PHASE II CONTROLS ARE REQUIRED (INCLUDES PHASE I FEE), EXCEPT WHERE SCHEDULE 26(f) APPLIES		
Base Fee/Per Nozzle Fee	\$785/84	*N/A/\$ 44
(b) REPLACEMENT OR ADDITION OF TANKS AT A PERMITTED PHASE II FACILITY		
Fee Per Facility**	\$837	N/A
(c) FACILITIES WHERE ONLY PHASE I CONTROLS ARE REQUIRED (INCLUDES TANK REPLACEMENT)		
Fee Per Facility	\$531	\$ 78
(d) ADDITION OF NOZZLES AT PERMITTED FACILITIES WHERE PHASE II IS REQUIRED, EXCEPT WHERE SCHEDULE 26(f) APPLIES		
Base Fee/Per Added Nozzle Fee	\$554/\$ 57	N/A
(e) NON RETAIL FACILITIES WITH 260-550 GALLON TANKS AND NO OTHER NON-BULK GASOLINE DISPENSING PERMITS		
Fee Per Facility	\$ 306	\$ 78
(f) PHASE II BOOTLESS OR MINI-BOOTED NOZZLE VACUUM ASSIST SYSTEM FACILITY		
Base Fee/Per Nozzle Fee	\$1420/\$123	\$194 /\$44

\* Fee per nozzle.

\*\* This subschedule does not apply if nozzles are added to an existing facility at the same time tanks are replaced or added. Use Subschedule 26(d) instead.

**SCHEDULE 27:** Application of Materials Containing Organic Solvents (includes coatings, adhesives, and other materials containing volatile organic compounds (VOC))

**PART 1 - MARINE COATINGS**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(t) First Permit to Operate for Marine Coating application at facilities where combined coating and cleaning solvent usage is < 3 gallons/day and <100 gallons	T+RN	\$202
(a) First Permit to Operate for Marine Coating application at facilities emitting < 10 tons/year of VOC from Marine Coating Operations	\$1973	\$256
(b) First Permit to Operate for Marine Coating application at facilities emitting ≥ 10 tons/year of VOC from Marine Coating Operations	\$2921	\$1030
(c) Each additional Permit Unit for Marine Coating application at existing permitted facilities	T+RN	\$ 90

**PART 2 - INDUSTRIAL MATERIAL APPLICATIONS AND MANUFACTURING**

(includes application stations for coatings such as paint spraying and dip tanks, printing, and manufacturing products with materials which contain VOCs, etc.).

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(d) Each Surface Coating Application Station w/o control equipment and not covered by other fee schedules at facilities using > 1 gallon/day of surface coatings and emitting < 5 tons/year of VOC from equipment in this fee schedule	\$1210	\$185
(e) Each Surface Coating Application Station w/o control equipment and not covered by other fee schedules at facilities emitting ≥ 5 tons/year of VOC from equipment in this fee schedule	\$1438	\$301
(f) Each Fiberglass, Plastic or Foam Product Process Line at facilities emitting < 10 tons/year of VOC from fiberglass, plastic or foam products operations	\$2033	\$291
(g) Each Fiberglass, Plastic or Foam Product Process Line at facilities emitting ≥ 10 tons/year of VOC from fiberglass, plastic or foam products operations	\$2377	\$303
(h) RESERVED		
(i) Each Surface Coating Application Station requiring Control Equipment	T+RN	\$3449
(j) Each Surface Coating Application Station subject to Rule 67.3 or 67.9 w/o Control Equipment at facilities emitting < 5 tons/year of VOC from equipment in this fee schedule	\$1578	\$ 262

**SCHEDULE 27: Continued****PART 2 - INDUSTRIAL MATERIAL APPLICATIONS AND MANUFACTURING**  
Continued

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(k) Each Surface Coating Application Station subject to Rule 67.3 or 67.9 w/o Control Equipment at facilities emitting $\geq 5$ tons/year of VOC from equipment in this fee schedule	\$3010	\$ 235
(l) Each Wood Products Coating Application Station w/o Control Equipment at facilities using $> 500$ gallons/year of wood products coatings and emitting $< 5$ tons/year of VOC from Wood Products Coating Operations	\$1054	\$ 244
(m) Each Wood Products Coating Application Station w/o Control Equipment at facilities emitting $\geq 5$ tons/year of VOC from Wood Products Coating Operations	\$1511	\$ 305
(n) Each Press or Operation at a Printing or Graphic Arts facility subject to Rule 67.16	T+RN	\$ 96
(o) Each Graphic Arts Operation at the Union Tribune Publishing Co. facility subject to Rule 67.16	T+RN	\$ 130
(p) Each Surface Coating Application Station w/o control equipment (except automotive painting) where combined coating, and cleaning solvent usage is $< 1$ gallon/day or $< 50$ gallons/year	\$1025	\$ 370
(q) Each Wood Products Coating Application Station of coatings and stripper w/o control equipment at a facility using $\leq 500$ gallons/year for Wood Products Coating Operations	\$ 963	\$ 230

**PART 3 - MOTOR VEHICLE AND MOBILE EQUIPMENT REFINISHING OPERATIONS**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(r) Each facility applying $< 5$ gallons/day of Coating Materials subject to Rule 67.20 (as applied or sprayed)	\$1426	\$309
(s) Each facility applying $\geq 5$ gallons/day of Coating Materials subject to Rule 67.20 (as applied or sprayed)	\$1306	\$228

**SCHEDULE 27: Continued****PART 4 - ADHESIVE MATERIALS APPLICATION OPERATIONS**

Fee Unit	Initial Fees (1)	Renewal (2)
(u) Each Adhesive Materials Application Station w/o control equipment at facilities emitting < 5 tons/year of VOC from equipment in this fee schedule	\$1210	\$185
(v) Each Adhesive Materials Application Station w/o control equipment at facilities emitting $\geq$ 5 tons/year of VOC from equipment in this fee schedule	\$1438	\$301
(w) Each Adhesive Materials Application Station w/o control equipment where adhesive materials usage is < 55 gallons/year	\$ 963	\$230

**SCHEDULE 28: Vapor and Cold Solvent Cleaning Operations and Metal Inspection Tanks**

Fee Unit	Initial Fees (1)	Renewal (2)
(a) Each Vapor Degreaser with an Air Vapor Interfacial area > 5 square feet	\$1171	\$115
(b) Each Cold Solvent Degreaser with liquid surface area > 5 square feet	\$ 979	\$ 65
(c) Each Corrosion Control Cart	T+RN	\$116
(d) Each Paint Stripping Tank	\$1332	\$112
(e) Each Vapor-Phase Solder Reflow Unit	T+RN	\$ 75
(f) Remote Reservoir Cleaners	\$ 336	\$ 72
(g) RESERVED		
(h) Vapor Degreaser with an Air-Vapor Interfacial area < 5 square feet	\$ 458	\$ 89
(i) Cold Solvent Degreaser with a liquid surface area < 5 square feet	\$ 337	\$ 80
(j) Metal Inspection Tanks	T+RN	\$152
(k) Contract Service Remote Reservoir Cleaners with $\leq$ 100 units	T+RN	\$ 6
(l) Contract Service Cold Degreasers with a liquid surface area of < 5 square feet	T+RN	\$ 8
(m) Each facility-wide solvent application operation	T+RN	T+M
(n) RESERVED		

**SCHEDULE 29: Solder Levelers and Hydrosqueegees**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Solder Leveler or Hydrosqueegee not covered by other Fee Schedules (except Vapor-Phase Solder Reflow Units)	T+RN	\$114

**SCHEDULE 30: Solvent and Extract Dryers**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Kelp and Biogum Products Solvent Dryer	T+RN	\$1511

**SCHEDULE 31: Dry Cleaning Facilities**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Facility using Halogenated Hydrocarbon Solvents required to install Control Equipment	T+RN	\$190
(b) Each Facility using Petroleum Based Solvents	T+RN	\$133
(c) Each Facility using Solvents not required to install Control Equipment	T+RN	\$105
(d) RESERVED		

**SCHEDULE 32: Acid Chemical Milling, Copper Etching and Hot Dip Galvanizing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Copper Etching Tank	T+RN	\$184
(b) Each Acid Chemical Milling Tank	T+RN	\$146
(c) Each Hot Dip Galvanizing Tank	T+RN	\$233
(z) Herco: Copper Etching Tank (98-99 Only)		\$5567

**SCHEDULE 33: Can and Coil Manufacturing and Coating Operations**

Fee Unit	Initial Fees (1)	Renewal (2)
(a) Each Process Line applying $\geq$ 1000 gallons per year	T+RN	\$352
(b) Research and Development Coil Coating Line	T+RN	\$158
(c) Each Process Line applying <1000 gallons per year	T+RN	\$128
(z) Napp: Process Line applying >1000 Gallons per year (98-99 Only)		\$2247

**SCHEDULE 34: Piston Type Internal Combustion Engines**

Fee Unit	Initial Fees (1)	Renewal (2)
(a) Each Cogeneration Engine with in-stack emission controls	T+RN	\$380
(b) Each Cogeneration Engine with Engine Design Emission Controls	T+RN	\$332
(c) Each Emergency Standby Engine (for electrical or fuel interruptions beyond control of Permittee)	\$1534	\$100
(d) Each Engine for Non-Emergency and Non-Cogeneration Operation	\$1601	\$180
(e) Each Grouping of Engines for Dredging or Crane Operation with total engine horsepower equal to or greater than 200 HP	T+RN	\$147
(f) Each Diesel Pile-Driving Hammer	T+RN	\$234
(g) Each Engine for Non-Emergency and Non-Cogeneration Operation less than 200 horsepower	T+RN	\$129
(w) Each Specified Eligible Engine, Registration Under Rule 12	\$322	\$104
(x) Each Specified Eligible Portable Engine, Registration Under Rule 12.1	\$200	\$150
(z) Each Specified Eligible Engine, Registration Under Rule 12, Conversion from Valid Permit	\$274	N/A

**SCHEDULE 35: Bulk Flour, Powdered Sugar and Dry Chemical Storage Systems**

Fee Unit	Initial Fees (1)	Renewal (2)
Each System	T+RN	\$136

**SCHEDULE 36: Grinding Booths and Rooms**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Booth or Room	\$1169	\$87

**SCHEDULE 37: Plasma Electric and Ceramic Deposition Spray Booths**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Application Station	T+RN	\$127

**SCHEDULE 38: Paint, Stain, Ink, Solder Paste, and Dielectric Paste Manufacturing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Process Line for Paint, Stain or Ink Manufacturing at facilities producing 10,000 gallons or more per year	T+RN	\$112
(b) Each Can Filling Line	T+RN	\$ 12
(c) Each Process Line for Solder Paste or Dielectric Paste Manufacturing	T+RN	\$ 37
(d) Each Paint, Stain or Ink Manufacturing facility producing <10,000 gallons per year	T+RN	\$ 91

**SCHEDULE 39: Precious Metals Refining**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Process Line	T+RN	\$ 68

**SCHEDULE 40: Asphalt Pavement Heaters/Recyclers**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Processor	T+RN	\$166
(x) Each Portable Unheated Pavement Crushing and Recycling System, Registration Under Rule 12.1	\$200	\$150

**SCHEDULE 41: Perlite Processing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Process Line	T+RN	\$739

**SCHEDULE 42: Electronic Component Manufacturing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Process Line	T+RN	\$319
(b) Each Screen Printing Operation	T+RN	\$ 75
(c) Each Coating/Maskant Application Operation, excluding Conformal Operation	T+RN	\$243
(d) Each Conformal Coating Operation	T+RN	\$ 58
(e) Each Facility-wide Solvent Application Operation	T+RN	\$ 53
(z) Herco: Screening Printing Operations (98-99 Only)		\$3675

**SCHEDULE 43: Ceramic Slip Casting**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Process Line	T+RN	\$130

**SCHEDULE 44: Evaporators, Dryers, & Stills Processing Organic Materials**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Evaporators and Dryers [other than those referenced in Fee Schedule 30 (a)] processing materials containing volatile organic compounds	T+RN	\$206
(b) Solvent Recovery Stills with a rated capacity equal to or greater than 7.5 gallons	T+RN	\$ 55

**SCHEDULE 45: Rubber Mixers**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Rubber Mixer	T+RN	\$ 45

**SCHEDULE 46: Reverse Osmosis Membrane Manufacturing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Process Line	T+RN	\$505

**SCHEDULE 47: Organic Gas Sterilizers**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Organic Gas Sterilizer requiring control	T+RN	\$998
(b) Each Stand Alone Organic Gas Aerator requiring control	T+RN	T+M
(c) Each Organic Gas Sterilizer not requiring control	T+RN	\$117
(d) Each Stand Alone Organic Gas Aerator < 25 lbs. not requiring control	T+RN	\$ 75

**SCHEDULE 48: Municipal Waste Storage and Processing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Sanitary Landfill	T+RN	T+M
(b) Each Temporary Storage and/or Transfer Station	T+RN	T+M
(c) Each Landfill Gas Flare or Containment System	T+RN	T+M
(d) Each Municipal Waste Incinerator	T+RN	T+M
(e) North County Resource Recovery	T+RN	T+M

**SCHEDULE 49: Non-Operational Status Equipment**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Non-Operational Status Equipment	\$37	\$ 28
(b) Activating Non-Operational Status Equipment	\$124 + RN*	N/A

\* Renewal Fee based on appropriate fee schedule for type of equipment + Rule 40(r) (if applicable).

**SCHEDULE 50: Coffee Roasters**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
Each Coffee Roaster	T+RN	\$629

**SCHEDULE 51: Industrial Waste Water Treatment**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Per Processing Line - Onsite	T+RN	\$232
(b) Per Processing Line - Offsite	T+RN	T+M

**SCHEDULE 52: Air Stripping & Soil Remediation Equipment**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Air Stripping Equipment	T+RN	\$108
(b) Soil Remediation Equipment - Onsite	\$3207	\$561
(c) Soil Remediation Equipment - Offsite	T+RN	\$561

**SCHEDULE 53: Lens Casting Equipment**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Lens Casting Line	T+RN	T+M
(b) Each Lens Coating Line	T+RN	T+M

**SCHEDULE 54: Pharmaceutical Manufacturing**

<u>Fee Unit</u>	<u>Initial Fees</u>	<u>Renewal</u>
	(1)	(2)
(a) Each Pharmaceutical Manufacturing Process Line	T+RN	\$502
(b) Each Protein Synthesis Process Line Employing Solvents	T+RN	T+M

**SCHEDULE 55: Hexavalent Chromium Plating and Chromic Acid Anodizing**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(a) Each Emission Collection System serving one or more Plating and/or Anodizing Tank(s)	T+RN	\$1209
(b) Each Decorative Plating Tank(s) Only	T+RN	T+M
(c) Each Hard Chrome Plating or Chromic Acid Tank	T+RN	T+M

**SCHEDULE 56: Sewage Treatment Facilities**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(a) Each Sewage Treatment Facility	T+RN	T+M
(b) Each Wastewater Odor Treatment System that is not part of a Permitted Sewage Treatment Facility	T+RN	T+M
(c) Each Sewage Sludge Composting Facility	T+RN	T+M

**SCHEDULE 57: Laundry Facilities Processing Material Containing Organic Compounds**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
Each Laundry Facility	T+RN	T+M

**SCHEDULE 58: Bakeries**

<u>Fee Unit</u>	<u>Initial Fees</u> (1)	<u>Renewal</u> (2)
(a) Each Emission Control Device serving an oven or a group of ovens	T+RN	T+M
(b) Each Bakery without add-on control and with combined oven heat capacity of 2 million BTU/hour or more	T+RN	T+M

**SCHEDULES 59 THROUGH 90, RESERVED**

## **SCHEDULE 91: Miscellaneous - Hourly Rates**

The fee for the Authority to Construct, Permit to Operate and annual renewal for items not listed in the above fee schedules of this subsection shall be determined by the actual costs incurred by the Air Pollution Control District. The initial Authority to Construct, Permit to Operate and first year renewal fee per unit shall be the sum of the annual renewal fee per unit and the actual Authority to Construct and Permit to Operate evaluation cost, each determined by using the labor rates specified in Schedule 94. The annual renewal fee per unit (Column 2) shall be the sum of the cost determined using the labor rates in Schedule 94 plus the air contaminant emissions fee based on Rule 40(r).

The applicant shall deposit with the Air Pollution Control District the amount estimated to cover the cost of evaluation and inspection, including the first year's surveillance, before an Authority to Construct and/or Permit to Operate is processed. If the actual cost incurred by the Air Pollution Control District is less than the amount deposited, the difference shall be refunded to the applicant. If any deposit is insufficient to pay all the actual costs, the applicant shall pay an amount deemed sufficient by the Air Pollution Control Officer to complete the work in progress. If the applicant fails or refuses to pay such amount upon demand, the Air Pollution Control District may recover the same by action in any court of competent jurisdiction until such amount is paid in full, providing the Air Pollution Control Officer determines that it is in the best interest of all parties concerned to proceed. An Authority to Construct and/or Permit to Operate shall not be issued until all required fees are paid.

All other fees specified in Sections (a) through (g) of this rule, shall also apply to this fee schedule.

## **SCHEDULE 92: Source Testing Done by the District**

Whenever the Air Pollution Control Officer finds that it is necessary for the Air Pollution Control District or a contractor hired by the District to make an analysis of emissions from any source for the purpose of more accurately quantifying emissions or determining whether a Permit to Operate or a Certificate of Registration or annual renewal of a Permit to Operate or a Certificate of Registration shall be issued, or where there is good reason to believe a source may not be in compliance with the District's Rules and Regulations the cost of collection and analysis of samples, including preparing the necessary reports, shall be added to the appropriate fee schedule herein. Source test fees shall be as determined in the following manner:

<u>Fee Unit</u>	<u>Fee</u>
(a) Each Particulate Matter Source Test	\$2990
Note: Cancellation Fee	\$ 500
(b) Each Oxides of Nitrogen Source Test	T+M
(c) Each Oxides of Sulfur Source Test	T+M
(d) Each Hydrocarbon Vapor Processor Source Test	T+M
(e) Each Observation and Participation of Hydrogen Sulfide Test	T+M
(f) Each Carbon Monoxide and Oxide of Nitrogen Source Test with a Continuous Analyzer	\$1843
(g) Each Oxides of Nitrogen Source Test with a Continuous Analyzer	\$1543
(h) Each Incinerator Particulate Matter Source Test (excluding quadrennial source test in Fee Schedule 14(a))	T+M

**SCHEDULE 92: continued**

(i) Each Ammonia Slippage Source Test	\$ 650
(j) Continuous Emission Monitor Evaluation	T+M
(k) Kelco: Each VOC Source Test	T+M
(l) Each VOC Outlet Source Test Only	T+M
(m) Each Mass Emissions Source Test	T+M
(n) Each Ethylene Oxide Test Witness	\$2005
(o) Each Multiple Metals Source Test	T+M
(p) Each Chromium Source Test	T+M
(q) Each VOC Onsite Analysis	T+M
(r) Each VOC Offsite Analysis	T+M
(s) Each Hydrogen Sulfide Source Test	T+M
(t) Each Acid Gases Source Test	T+M
(z) Micellaneous Source Test (Special Tests not Listed)	T+M

The cost of testing not specified in Sections (a) through (t) or where a T+M fee is indicated, or for additional District costs in those cases (e.g., tall stacks) when testing requires an unusually greater amount of onsite time than that represented by the fixed fees specified in this Schedule, shall be determined using the labor rates specified in Schedule 94 and related material and other costs.

**SCHEDULE 93: Observations and Evaluations of Source Testing  
Performed by Private Companies**

Whenever the Air Pollution Control Officer finds that it is necessary for the Air Pollution Control District to observe source testing performed by private companies for the purpose of determining whether a Permit to Operate or a Certificate of Registration or annual renewal of a Permit to Operate or a Certificate of Registration shall be issued, or where there is good reason to believe a source may not be in compliance with the District's Rules and Regulations, the cost of the observation and the preparation of a report shall be added to the applicable fees of this rule.

When a test procedure review is requested by a private company and the Air Pollution Control Officer agrees that a review should be made, the cost of the review shall be paid by such private company.

<u>Fee Unit</u>	<u>Fees</u>
(a) Observations	T+M
(b) Source Test Reports	T+M
(c) Test Procedure Review	T+M

**SCHEDULE 94: Time and Material (T+M) Labor Rates**

Employee Classification (Fee Unit)	Hourly Rate
Engineering Technician (94p)	\$ 99
Junior Engineer (94a)	\$103
Assistant Engineer (94b)	\$107
Associate Engineer (94c)	\$122
Senior Engineer (94d)	\$148
Air Quality Inspector I (94o)	\$ 60
Air Quality Inspector II (94e)	\$ 73
Air Quality Inspector III (94f)	\$ 87
Assistant Air Resources Specialist (94s)	\$ 94
Associate Air Resources Specialist (94q)	\$108
Assistant Meteorologist (94g)	\$ 67
Associate Meteorologist (94r)	\$ 69
Senior Meteorologist (94h)	\$ 73
Assistant Chemist (94i)	\$ 63
Associate Chemist (94j)	\$ 70
Senior Chemist (94k)	\$ 82
Supervising Instrument Technician (94t)	\$ 69
Instrument Technician I (94l)	\$ 51
Instrument Technician II (94n)	\$ 60
Source Test Technician (94m)	\$ 56
Air Pollution Control Aide (94u)	\$ 43
Student Worker V (94x)	\$ 55
Student Worker III (94w)	\$ 44
Student Worker II (94v)	\$ 34

**SCHEDULE 95: Sampling and Analysis**

Whenever the Air Pollution Control Officer finds that it is necessary for the Air Pollution Control District to make an analysis of any samples for the purpose of determining potential emissions and/or for the purpose of determining compliance with District Rules and Regulations, the cost of collection and analysis of samples, including preparing the necessary reports, shall be paid by the permittee or applicant for activities which do not require a permit. The cost shall be equal to the cost determined by using the labor rates specified in Schedule 94 and the cost of external analysis.

**SCHEDULE 96: Additional Costs Incurred by the District for Permittees Not in Compliance**

Whenever the Air Pollution Control District is required to provide consultation, testing or inspection services to a permittee beyond the average consultation, testing and inspection covered by the permit fees specified in the preceding schedules, because the permittee's source is out of compliance with District Rules and Regulations, the cost of such consultation, testing, inspection and costs related to any Notice of Violation or Notice to Comply shall be a fee in addition to the permit fees provided elsewhere in Rule 40. The cost of such consultation, testing, inspection and costs related to any Notice of Violation or Notice to Comply shall be determined by using the labor rates specified in Schedule 94. The permittee shall be billed the additional fee for the consultation, testing, inspection and costs related to any Notice of Violation or Notice to Comply and shall remit such amount to the Air Pollution Control District within 30 days of being notified that such amount is due, unless prior arrangements for payment have been approved by the Air Pollution Control Officer. For the purposes of this schedule, the term permittee also applies to any person who has applied for or has been issued a Certificate of Registration pursuant to Rules 12 or 12.1.

**SCHEDULE 97: Other Charges**

Whenever the Air Pollution Control District is required to provide consultation, legally required testimony, testing or inspection, engineering, or incur costs related to any Notice of Violation or Notice to Comply or other services to any individual, business or agency, not directly related to District permitting, registration or testing requirements, the cost of such services shall be determined using the labor rates specified in Schedule 94. Individuals, businesses or agencies requesting the service shall be billed the estimated cost of such services, and shall remit such amount to the Air Pollution Control District in advance of the service, unless prior arrangements for payment have been approved by the Air Pollution Control Officer.
