

FOR YOUR INFORMATION

The Following Notice was Published by the District

**NOTICE OF PRELIMINARY DECISION TO
REVISE TABLE II IN RULES 1200 AND 1210 OF REGULATION XII
BY THE SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT**

The San Diego County Air Pollution Control District (District) hereby gives notice that the Air Pollution Control Officer has made a preliminary decision to revise Table II (Toxic Air Contaminants for Which Potential Chronic Noncancer Impacts Must Be Calculated) in Rules 1200 (Toxic Air Contaminants-New Source Review) and 1210 (Toxic Air Contaminant Public Health Risks-Public Notification and Risk Reduction) in accordance with Subsection (c)(23) of Rule 1200 and Subsection (c)(18) of Rule 1210. Calculation of public health risk effects are based on health standards recommended by the California Office of Environmental Health Hazard Assessment (OEHHA).

Since the last District revision of Table II, OEHHA determined that a compound – specifically, ethylene glycol butyl ether – EGBE (CAS 111-76-2) – also has potential chronic noncancer impacts. Accordingly, the District now proposes to add this compound to the list of compounds in Table II of Rules 1200 and 1210. EGBE is used primarily as a solvent in cleaning products, paints, brake fluids, and inks.

The proposal is available for public review at the Air Pollution Control District, 10124 Old Grove Road, San Diego, CA 92131. It is also available on the District’s website at http://www.sdapcd.org/content/sdc/apcd/en/Rule_Development/Workshops.html. Written comments concerning the District’s proposed action may be submitted to the District at the same address for a period of 30 days, commencing on June 18, 2018, and ending on July 18, 2018.

Questions or comments regarding the proposed action may be directed to Angela M. Ortega at Angela.Ortega@sdcounty.ca.gov or (858) 586-2753.
