Dianne Jacob	District 2
Kristin Gaspar	District 3
Ron Roberts	District 4
Bill Horn	District 5

October 25, 2018

NOTICE OF WORKSHOPS

The San Diego County Air Pollution Control District (District) will hold three public meetings to present and receive input on draft proposed regulatory updates as summarized below. Comments concerning these draft proposals may be submitted in writing before, or made at, each workshop which are scheduled as follows:

DATE: Wednesday, November 28, 2018
PLACE: San Diego County Air Pollution Control District
Main Conference Room
10124 Old Grove Road
San Diego, CA 92131

1. TIME: 1:00 p.m. to 1:45 p.m. – Federal Permit Requirements

Draft proposed amendments to New Source Review (NSR) Rules 20.1, 20.2, 20.3, and 20.4; Title V Rule 1415 – Permit Process-Public Notification; and Rule 26.0 – Banking of Emission Reduction Credits (ERCs)-General Requirements.

- Correct two deficiencies the U.S. EPA found in their conditional approval of the District's 2016 NSR rules (see link below to the District's workshop webpage for details);
- Allow electronic public notifications for NSR and Title V permitting, and for ERCs, in lieu of notifications via newspaper publication; and
- Add applicable requirements for all ozone non-attainment classifications to the NSR rules (text will be published on the District's workshop webpage prior to the workshop).

If you have questions concerning this draft proposal or wish to submit comments, please contact Jim Swaney at (858) 586-2715 or jim.swaney@sdcounty.ca.gov.

2. TIME: 2:00 p.m. to 2:45 p.m. – District Prohibitory Rules & Permit Exemption Rules

Draft proposed amendments to Rule 11 – Exemptions from Rule 10 Permit Requirements, Rule 67.6.1 – Cold Solvent Cleaning and Stripping Operations, and Rule 67.6.2 – Vapor Degreasing Operations.

Rule 11 is proposed for revision to the following sections to provide clarification and additional permit exemptions:

- (d)(13)(viii) to exempt polyester resin operations with volatile organic compound (VOC) emissions of 150 pounds or less per consecutive 12-month period;

OVER

- (d)(16)(i) to exempt cold solvent cleaning, vapor degreasing, or stripping operations that use materials with a VOC content of 25 grams per liter (g/l) or less;
- (d)(16)(ix) to clarify that the 550-gallon usage exemption for surface preparation and wipe cleaning using VOC-containing materials does not apply to cold solvent cleaning, vapor degreasing, or stripping operations;
- (d)(17)(vi) to clarify that the exemption for mobile transport, delivery, or cargo tanks on vehicles used for delivery of volatile organic liquids does not apply to the transfer of volatile organic liquids from tanks into vehicle fuel tanks; and
- (d)(19)(xxi) to exempt municipal wastewater pump stations that have an annual average actual throughput of less than one million gallons of wastewater per day.

Additionally, Rules 67.6.1 and 67.6.2 are proposed for amendment to exempt cleaning materials with a VOC content of 25 g/l or less.

If you have questions concerning this draft proposal or wish to submit comments, please contact Angela M. Ortega at (858) 586-2753 or angela.ortega@sdcounty.ca.gov.

3. TIME: 3:00 p.m. to 3:45 p.m. – Federal Performance Standards for New Sources

Draft proposed amendments to Regulation X – Standards of Performance for New Stationary Sources (NSPS):

- Repeal 16 outdated District Rules and, in their place, adopt by reference the corresponding federal requirements which are currently applicable;
- Adopt by reference 4 additional federal NSPSs and the current versions of 7 federal NSPSs that were amended since 2009.

In addition to updating Regulation X, the District also proposes amending the procedures for locally adopting new or amended federal NSPSs. As proposed, any new federal NSPS will be submitted to the Air Pollution Control Board for adoption by reference. Any subsequent federal amendments to a previously locally adopted NSPS will be subject to a local public notice process without submittal to the Board for adoption. This action will simplify the rule development process.

If you have any questions concerning this draft proposal or wish to submit comments, please contact Angela M. Ortega at (858) 586-2753 or angela.ortega@sdcounty.ca.gov.

Copies of the draft proposed amendments to these regulations are available on the District's website at http://www.sdapcd.org/content/sdc/apcd/en/Rule_Development/Workshops.html.

The District encourages workshop participants to bring their own copies of the draft proposed rules. Those without internet access may contact Janet McCue at (858) 586-2712 or janet.mccue@sdcounty.ca.gov.

**REGULATION X. STANDARDS OF PERFORMANCE FOR NEW
STATIONARY SOURCES (NSPS)** (Rev. Effective ~~June 24, 2009~~ (date of
adoption); EPA Delegation (effective date))

The provisions of Part 60, Chapter I, Title 40, of the Code of Federal Regulations, (40 CFR 60), applicable to the subparts listed in this Regulation are hereby adopted by reference on the date shown and made part of the Air Pollution Control District Rules and Regulations. Whenever any source is subject to more than one rule, regulation, provision, or requirement relating to the control of any air contaminant, in cases of conflict or duplication the most stringent rule, regulation, provision, or requirement shall apply.

All new sources of air pollution and all modified or reconstructed sources of air pollution shall comply with the applicable standards, criteria, and requirements set forth herein. For the purpose of this Regulation, the word "Administrator" as used in 40 CFR 60 shall mean the Air Pollution Control Officer of the San Diego County Air Pollution Control District, except that the Air Pollution Control Officer shall not be empowered to approve alternate test methods, alternate standards, or work practices. Other deviations, if any, from the provisions of 40 CFR 60, which are adopted by the Air Pollution Control Board are noted in the reference to the affected Subpart.

Any new Subpart promulgated after the date of adoption of this Regulation shall be submitted to the Air Pollution Control Board for adoption by reference. The Air Pollution Control Officer may revise this Regulation, to include subsequent amendments of any Subpart, no earlier than 30 days after public notice of the proposed changes is published in a newspaper of general circulation in the District.

The U.S. Environmental Protection Agency (EPA) retains concurrent enforcement authority for these standards pursuant to Section 113 of the federal Clean Air Act, as amended, if the EPA Administrator desires to exercise it, including those not yet adopted by the Air Pollution Control District.

The addition of federal Subparts by reference to Regulation X shall take effect and be in force on the date of delegation of enforcement authority to the San Diego County Air Pollution Control District by EPA.
