SECTION 1 – APCO RECOMMENDED BUDGET TRANSMITTAL

April 12, 2022

Dear San Diego County Air Pollution Control District Board, County residents, and stakeholders:

This document represents the San Diego County Air Pollution Control District's (District or APCD) Recommended Budget for Fiscal Year (FY) 2022-23, covering the period July 1, 2022, through June 30, 2023. The budget adoption process is specified in California Health and Safety Code Section 40131 and includes requirements for posting this Budget Summary and Fee Schedule 30 days in advance (April 12, 2022) of two public hearings to receive and consider adopting the recommended budget; the two public hearings are scheduled for May 12, 2022, and June 9, 2022.

The Recommended Budget is balanced and reflects a proposed total of \$99.9 million (M) in revenues and expenditures for FY 2022-23 to advance the District's Vision of Clean Air for All, and Mission to improve air quality to protect public health and the environment. This includes 164 FY 2021-22 Adopted Positions, 3 new positions approved in the March 2022 mid-year budget adjustment and 8 recommended positions (air resource specialists, chemists, managers, and support staff), \$45.9M in pass-through grant funds for projects that accelerate improvements to air quality and public health, and an Operating Fund Balance Reserve equal to an estimated two (2) months of District operating expenditures (\$4.2M), providing a financial safety net to help ensure core programs and services are maintained.

In March of 2021, APCD was reorganized in accordance with California Health and Safety Code section 40100.6 (Assembly Bill 423, Gloria, 2019). The separation from the County of San Diego has required APCD to take on additional administrative, fiscal, budgeting and accounting functions that were previously performed by the County. Also, in the last three years, the District has developed additional programs to promote public health in the local communities most impacted by air pollution. The Community Air Protection Program has been expanded to serve not only the Portside Environmental Justice Communities (Barrio Logan, Logan Heights, Sherman Heights, and West National City) but also the International Border Communities (San Ysidro and Otay Mesa). The proposed budget and recommended positions reflect these changes and support these efforts, as well as address existing gaps in District programs.

To further guide the development of the Recommended Budget, District staff developed Goals and Objectives to provide a road map for the District's work for the coming year, in support of the Vision and Mission. These Goals and Objectives have been informed by the new policy direction from the APCD Governing Board, AB 423, staff input, and existing program requirements. The District has responded to the new requirements, recommendations, and direction by seeking to improve upon the District's existing programs and embracing the challenges and opportunities that come with change. This Recommended Budget thus reflects both new direction and renewed commitment to the District's Goals of promoting **Air Quality, Public Health, Environmental Justice and Equity, Public Engagement and Transparency, and Operational Excellence**. In the Fall of 2022, the District will be embarking on a long-term strategic planning process with the Governing Board and staff to guide the development of programs for the next several years in support of the Vision - Clean Air for All.

Respectfully,

Paula Forbis, Air Pollution Control Officer

APCD's VISION AND MISSION

FY 2022-23 GOALS AND OBJECTIVES

Air Quality

Improve air quality in the region to attain all State and Federal air quality standards

Objectives

- *Enhance the Air Quality Complaint Program by implementing and administering a Program to respond to after-hours air quality complaints.*
- *Expand the Compliance Mobile Source Program by enforcing additional regulations.*
- *Measure and track pollutants and determine attainment status of Federal standards.*
- *Consider adoption of additional regulations to reduce emissions of criteria air pollutants.*

Public Health

Promote healthy communities by reducing risks from air toxics emissions that can create adverse health effects

Objectives

- *Notify communities exposed to elevated health risks and require implementation of risk reduction measures from stationary sources that create elevated health risks in accordance with State law and District Rule 1210.*
- *Collaborate with local agencies, residents, community-based organizations, and businesses to implement the Community Emissions Reduction Plan for the Portside Environmental Justice Community.*
- *With community partners, complete a Community Emissions Reduction Plan for the International Border Community.*

Environmental Justice and Equity

Lift and address the needs of communities most impacted by air pollution by integrating environmental justice and equity across all services we provide

Objectives

- *Support the implementation of the Community Air Protection Program.*
- *Measure and track pollutants to help inform air quality improvement strategies in our Community Air Protection Program communities.*

- *Engage EJ stakeholders and Community Air Protection Program stakeholders in policy and budget development, monitoring network planning, and planning efforts to meet air quality standards and protect public health.*
- *Provide a framework for leadership and staff with direction and guidance to integrate environmental justice into the District's work.*
- *Develop materials that will inform Governing Board and Hearing Board members of the health effects of air pollution, including a map of the region with a focus on the highest risk communities and how it compares to the rest of the county.*
- *Provide training opportunities to ACPD staff on equity, diversity, and inclusion.*

Public Engagement and Transparency

Support informed decision-making and stakeholder confidence by promoting meaningful public engagement and transparency

Objectives

- *Enhance public engagement, promote public meetings through social media and email subscription services.*
- *Promote transparency by making accessible to the public more user-friendly and current data related to permitting actions, and public notifications for health risks and risk reduction plans and emission inventories for facilities' toxic air emissions.*
- *Promote transparency and increase public engagement and awareness of air quality by making all air quality data available via our website in a user friendly, understandable, and accessible format.*
- *Equip the community with meaningful tools, resources, and information so that the community is empowered to be an engaged partner in APCD decision making.*
- *Develop a community engagement toolkit for staff to effectively communicate with the community.*
- *Establish partnerships with community-based organizations, government departments, and agencies to ensure community outreach is coordinated and demonstrates collaborative results, and to ensure inter-agency collaboration across environmental media to promote community health.*

Operational Excellence

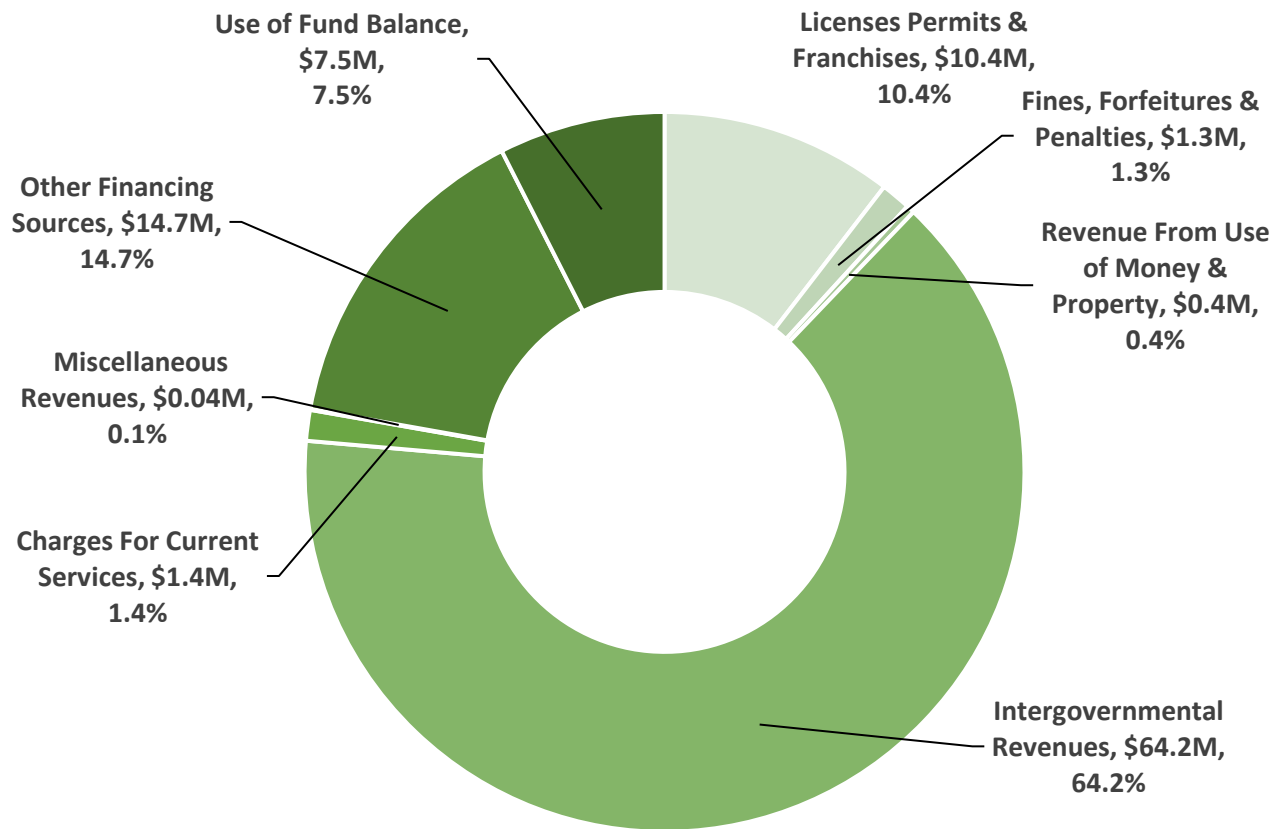

Ensure superior service delivery by providing innovative technology and appropriate resources, supported by resilient processes and controls, to accomplish our mission

Objectives

- *Evaluate programs and services to develop and implement online services to maximize efficiencies and benefit the communities we serve.*
- *Integrate enhanced spatial/location information across APCD programs and systems to improve operational insights, assist with permitting and compliance activities, and support advanced analysis for key programs such as the Environmental Justice Program.*
- *Develop a comprehensive onboarding program for new team members (and offboarding for departing staff) and promote training opportunities to further encourage/prepare our team to strengthen our customer service culture.*
- *Ensure availability, currency, utility, and consistency of Standard Operating Procedures across all programs and Divisions.*

SECTION 2 – BUDGET FINANCIAL STATEMENTS

Revenues By Classifications (\$99.9 Million)

REVENUE CLASSIFICATION DEFINITIONS

Licenses, Permits & Franchises – Revenue derived from permit application fees, permit renewal fees, and other fees paid by customers for District services in accordance with Rule 40 (Permit and Other Fees)

Fines, Forfeitures, & Penalties – Revenue derived from fines paid by violators of air quality regulations

Revenue from Use of Money & Property – Interest revenue earned on fund balances

Intergovernmental Revenues – State and Federal grant monies, most of which is pass-through funding for projects to improve air quality and public health in communities throughout the region

Charges for Current Services – Asbestos notification and Portable Equipment Registration Program (PERP) fees

Miscellaneous Revenues – Other administrative fees

Other Financing Sources – Operating transfers of funds between District accounts

Use of Fund Balance – Use of existing fund balance to fund specific one-time expenditures

Expenditures By Classifications (\$99.9 Million)

EXPENDITURE CLASSIFICATION DEFINITIONS

Salaries & Benefits – Includes payroll costs associated with full and part-time employees which includes wages, supplemental pay, retirement / pension, Social Security, Medicare, and Flex Credit used to offset medical and/or dependent care

Services & Supplies – Includes, but is not limited to, professional services (e.g., audit, legal and consulting services), utilities, lab equipment and supplies, and IT costs

Other Charges – To account for Grant awards to businesses and other agencies for mobile incentive projects

Capital Assets Equipment – Includes tangible or intangible assets (e.g., vehicles, lab equipment, furniture, etc.) that are used in operations and that have initial useful lives extending beyond a single reporting period

Operating Transfers Out – Operating transfers of funds between District accounts

Expenditure Transfer Reimbursement – Includes administrative overhead charges allocated between programs

Fund Balance Component Increases – To create Committed Fund Balance account for financial system replacement and adjust operating reserves

BUDGET SUMMARY VARIANCE EXPLANATIONS

REVENUES & SOURCES

Licenses, Permits, & Franchises (Applications & Permit Renewals)

Increase of \$2 million (M), or 24.4%, for an estimated total of \$10.4M based on projected permitting program revenue increases, consistent with the Cost Recovery Studies conducted for Fiscal Year 2021-22 and Fiscal Year 2022-23 as adopted by the Governing Board.

Fines, Forfeitures & Penalties

Increase of \$0.3M, or 30.0%, for an estimated total of \$1.3M based on a 2-year average of \$1.3M.

Revenue from Use of Money & Property (Interest)

Decrease of \$0.1M, or -21.3%, for an estimated total of \$0.4M due to projected interest revenue on grant and operational fund cash balances.

Intergovernmental Revenues (Federal & State Pass-through Grants)

Net increase of \$18.9M, or 41.6%, for an estimated total of \$64.2M due to anticipated increase in State grant funding for Carl Moyer Grant Program (\$15.5M), Community Air Protection Program (AB617) (\$3M), Clean Cars for All Program (\$0.9M), and the Funding Agriculture Replacement Measures for Emission Reductions Program (FARMER) (\$0.4M). This increase is offset by anticipated decrease in State grant funding for Goods Movement Emission Reduction Program (GMERP) (-\$0.7M), Vehicle Registration fee revenue, based on the estimated number of registered vehicles in San Diego County, (-\$0.1M), and other grant net decreases of (-\$0.1M).

Charges for Current Services (Primarily Asbestos Fees)

Increase of \$0.4M, or 42.4%, for an estimated total of \$1.4M based on the projected Asbestos fee revenue increases, consistent with the Cost Recovery Studies conducted for FY 2021-22 and FY 2022-23 as adopted by the Governing Board.

Other Financing Sources (Operating Transfers from District Funds)

Net decrease of -\$2.3M, or -13.6%, for an estimated total of \$14.7M due to a decrease of one-time operating transfers of (-\$3.1M) from the Vehicle Registration Fee Fund for Fiscal Year 2022-23. This decrease is offset by an increase in operating transfers from various State Incentive Grants (\$0.8M) to administer projects funded by Carl Moyer Program, Community air Protection Program (AB617), and FARMER program.

Use of Fund Balance (Funding for One-Time Expenditures)

Decrease of -\$3.6M, or -32.4%, for an estimated total of \$7.5M for the following one-time FY 2022-23 projects:

- \$4.3M – One-time projects, initiatives, IT, and capital projects (e.g., Monitoring capital assets & equipment, laboratory information management system, emission inventory system, and installation of additional EV charging stations).
- \$0.3M – Replacement of 5 vehicles in APCD fleet, of which 4 are electric vehicles and 1 customized van for Source Testing.
- \$2.5M – establishment of a “*Committed for Financial System Replacement Fund Balance*” account.
- \$0.4M – Increase in the “*Committed for Operating Reserve Fund Balance*” account, for a total balance of \$4.2M which is an estimated two months of operating expenditure reserve.

EXPENDITURES & USES

Salaries & Benefits

Net increase of \$2.6M, or 10.9%, for an estimated total of \$26.1M, due to potential new negotiated labor agreements (3%) and other estimated health insurance and other benefits cost increases (\$2.5M), the ongoing funding for 11 positions (of which 3 positions were approved by the Governing Board in March 2022), and 8 recommended new staff years (\$1.5M). This is offset by an estimated 5% in vacancy rate salary savings (-\$1.4M).

Services & Supplies (e.g., Professional Services, Utilities, Equipment, and Overhead)

Net increase of \$1.6M, or 13.0%, for an estimated total of \$14.3M, due to administrative overhead charges allocated to the District air quality programs (\$2.6M), which is offset in Expenditure Transfers Reimbursement Object Level; increases for Professional & Specialized Services which includes consultant costs for the financial system replacement, strategic planning, business process review and socioeconomic impact assessment consultants, Office of Environmental Justice and Public Information & outreach, increase in Counsel cost (\$0.8M). These increases are offset by a decrease for funds budgeted in FY 2021-22 for financial system replacement (-\$1.8M) as these funds will now recommended to be designated to the new committed account requested for FY 2022-23.

Other Charges (Incentive Fund Projects)

Net increase of \$18.1M, or 65.4%, primarily due to an increase in State grant award funding for projects funded by the Carl Moyer Program (\$15.1M), Community Air Protection Program (AB617) (\$3.6M), Clean Cars for All (\$0.9M), and FARMER Program (\$0.4M). This increase is offset by a decrease for completed or substantially completed projects that reduce air pollution from motor vehicles and mobile equipment (-\$1.9M).

Capital Assets Equipment

Net decrease of \$0.1M, or -6.4%, due to a decrease in monitoring equipment funded by the Community Air Protection Program (AB617) implementation grant (-\$0.4M). This decrease is offset by an increase in Transportation Equipment (\$0.3M) to replace 5 District vehicles (4 vehicles 100% electric).

Expenditure Transfer Reimbursement (Administrative Overhead Charges Applied to District Programs)

Decrease of \$2.6M, or 78.6%, due to administrative overhead charges allocated between programs which is offset in Services & Supplies Object Level.

Operating Transfers Out (Operating Transfers to District Funds)

Net decrease of -\$2.3M, or -13.6%, for an estimated total of \$14.7M due to a decrease of one-time operating transfers of (-\$3.1M) from the Vehicle Registration Fee Fund for Fiscal Year 2022-23. This decrease is offset by an increase in operating transfers from various State Incentive Grants (\$0.8M) to administer projects funded by Carl Moyer Program, Community air Protection Program (AB617), and FARMER program.

Fund Balance Component Increases (Funding for One-Time Expenditures)

Decrease of -\$1.6M, or -35.6%, for an estimated total of \$2.9M for the following one-time FY 2022-23 projects:

- \$2.5M – establishment of a “*Committed for Financial System Replacement Fund Balance*” account
- \$0.4M – Increase in the “*Committed for Operating Reserve Fund Balance*” account, for a total balance of \$4.2M which is an estimated two months of operating expenditure reserve.

STAFFING SUMMARY (FULL-TIME EQUIVALENT OR FTE)

Division	FY 2020-21 Adopted FTE	FY 2021-22 Adopted FTE	FY 2022-23 Recommended FTE	Change from FY 2021-22 ADO to FY 2022-23 REC
Business Support Services	22	21	26	5
Administration	10	10	12	2
Mobile Incentives	11	10	12	2
Engineering	28	29	26	-3
Monitoring	37	37	42	5
Source Testing	8	8	6	-2
Compliance	43	43	44	1
Rule Development	5	5	5	0
Hearing Board	0	0	0	0
Governing Board	0	1	2	1
Total FTE	164	164	175	11

STAFFING CHANGES FROM FY 2021-22 (ADOPTED) TO FY 2022-23 (RECOMMENDED)

The separation from the County of San Diego, and existing and new program requirements, necessitates APCD to respond and take on additional administrative, air monitoring, safety, quality assurance, fiscal, budgeting and accounting functions. To ensure critical services are provided and meet District goals and objectives, there are 11 additional staff positions requested and 175 total number of staff years (full-time equivalent or FTE) included in the FY 2022-23 Recommended Budget. This includes 164 FY 2021-22 Adopted Positions, three (3) new positions approved in March 2022 (Associate Air Pollution Chemist, Supervising Air Resources Specialist, and Administrative Analyst II), and the following eight (8) recommended positions requested for FY 2022-23:

- Two (2) Associate Air Pollution Chemists and one (1) Senior Air Pollution Chemist to support enhanced community air monitoring requirements and regional quality assurance/quality control requirements.
- One (1) Associate Air Resources Specialist to support implementation of Air Toxics Inventory and Rule 1210 air toxic risk reduction efforts.
- One (1) Senior Accountant and one (1) Associate Accountant to assist with fiscal, budgeting, auditing, and accounting functions previously performed by the County.
- One (1) Departmental Safety Coordinator and one (1) Chief, Admin Services to support enhanced safety, strategic planning processes, as well as provide additional human resources support.

The changes also reflect internal transfers of existing position(s) from one division to another.

FUND BALANCE SUMMARY

¹ New Committed Fund Balance account to be established for Financial Systems

OPERATIONS GENERAL FUND

This fund is legally restricted for operations of the Air Pollution Control District. The District protects the public and the environment from the harmful effects of air pollution by attaining and maintaining ambient air quality standards throughout the County. Revenue is derived primarily from permits, applications and other fees paid by local industrial sources, Federal grant funding from the Environmental Protection Agency (EPA), State subvention funding from the California Air Resources Board (CARB), the Department of Motor Vehicles (DMV) Registration Fees, and fines paid by violators of air quality regulations. This fund is primarily used to finance District operations and for one time uses each year.

Committed for Operating Reserve Fund Balance Account

This committed account within the General Fund, includes approximately two months of operating expenditure reserves that could be used, if necessary, to maintain core programs and services in cases of unforeseen economic revenue shortfalls, as determined by District Management with Governing Board approval.

Committed for Facilities and Fleet Fund Balance Account

This committed account within the General Fund, could be used for facilities and fleet improvements and replacement as necessary, as determined by District Management with Governing Board approval.

Committed for Financial Systems Fund Balance Account

This committed account within the General Fund, could be used for financial systems replacement as necessary, as determined by District Management with Governing Board approval.

FUND BALANCE SUMMARY (CONT.)

AIR QUALITY IMPROVEMENT TRUST (VEHICLE REGISTRATION FEES) FUND

This fund is used to support District programs for the reduction of motor vehicle emissions, health risk, and for motor vehicle-related planning, air monitoring, technical studies, and program administration necessary to implement the California Clean Air Act. Revenue is received quarterly from the DMV and is derived from a \$4 vehicle registration levy paid annually to the District (via the DMV) by San Diego County motorists. This fund is used to finance the District's motor vehicle-related operations each year and District approved projects that reduce air pollution from motor vehicles and mobile equipment. The Fund is also used to fulfill the required local match requirements for other programs and grants, and supports District approved measures in San Diego County's Climate Action Plan to incentivize electric vehicle charging infrastructure and the retirement of older high-polluting motor vehicles. The fund also supports the Mobile Source Compliance Program, which enforces mobile source regulations pursuant to a Memorandum of Understanding with CARB. Finally, to a lessening extent, these funds have also been used to offset administrative costs of the District's regulatory program for stationary sources, due to the fact that the region's air quality non-attainment status is driven by motor vehicle emissions.

CARL MOYER PROGRAM FUND

This fund is legally restricted for projects that reduce mobile source emissions and associated health risks, and for program administration under the Carl Moyer Program. Revenue is received annually from CARB through an application process that considers the County's total population and air quality attainment status. Revenue is derived from annual smog abatement fees paid by owners of vehicles that are up to 8 model-years old and thus exempt from smog check requirements. The Fund is used to provide one-time grants for District approved projects to incentivize the accelerated retirement and replacement of older, highly polluting diesel engines ahead of deadlines set by State law. Qualifying projects are solicited annually through a competitive proposal process, evaluated, and selected pursuant to State guidelines. Disbursements to an individual project are completed after the awardee has entered into a contract with the District and submitted proof of payment for the replacement vehicle, which can take one to two years. Any funding not disbursed in the current year is rolled forward to the next annual grant cycle.

FUND BALANCE SUMMARY (CONT.)

GOODS MOVEMENT EMISSION REDUCTION PROGRAM (GMERP) FUND

This fund is legally restricted for projects that reduce emissions and associated health risk from freight movement, and for program administration under the Goods Movement Emission Reduction Program (GMERP). The revenue was received from CARB and was derived from \$1 billion in Statewide bond funding as approved by California voters in 2006. All bond funding has been allocated by the State. Accordingly, this fund is to be closed upon disbursement of all project funds.

FUNDING AGRICULTURAL REPLACEMENT MEASURES FOR EMISSION REDUCTIONS PROGRAM (FARMER)

FUND

This fund is legally restricted for projects that reduce air pollution and greenhouse gas emissions in the agricultural sector. This fund is used to provide one-time grants to District approved projects to incentivize the accelerated retirement and replacement or upgrade of older, diesel on-road and off-road agricultural equipment including tractors, harvesting equipment, irrigation pump engines, utility terrain vehicles, heavy-duty trucks, and other equipment used in agricultural operations. Qualifying projects are solicited through a competitive proposal process, evaluated, and selected pursuant to State guidelines. Disbursements to an individual project are completed after the awardee has entered into a contract with the District and submitted proof of payment for the replacement vehicle, which can take one to two years. Any funding not disbursed in the current year is rolled forward to the next annual grant cycle.

COMMUNITY AIR PROTECTION PROGRAM (AB 617) FUND

This fund is legally restricted for District administration of the Community Air Protection Program, to select locations to participate in the program and monitor and improve air quality in disadvantaged communities that experience disproportionate burdens from exposure to air pollution due to environmental, health, and socioeconomic factors. Revenue is received annually from CARB through the State budget process. The revenue is derived from the State's carbon auction proceeds pursuant to the Statewide Cap and Trade program. Funding is dependent on the State's selection of local disadvantaged communities for program participation. This fund supports annual program staffing, capital expenditures, and services and supplies as necessary to measure air pollutants within the identified disadvantaged communities and provides incentive funding to reduce the emissions of those air pollutants and improve community capacity to participate in the process.

DISTRICT DESCRIPTION

The San Diego County Air Pollution Control District (APCD) protects the public and the environment from the harmful effects of air pollution, which include heart and lung disease, by attaining and maintaining the California and National Ambient Air Quality Standards throughout the San Diego region. These standards define the maximum amount of an air pollutant that can be present in the outdoor air without threatening the public's health. To meet these health-protective standards the APCD measures, reports and predicts air quality throughout the region, ensuring the public has clean, healthful air to breathe. The APCD is mandated by Federal and State law to regulate stationary (i.e., fixed) sources of air pollution such as factories, power plants, gasoline stations and other facilities in the region.

The APCD issues permits to approximately 4,000 local businesses and public agencies, with permit conditions that limit or require specific actions to reduce air pollutant emissions and associated health risks. The APCD also conducts over 10,000 inspections each year to verify permitted facilities are in compliance and to respond to public complaints about air pollution and reduce associated health risks. Additionally, the APCD provides millions of dollars in incentive grants to businesses and public agencies for projects that reduce air pollutant emissions and associated health risks from high-polluting on-road and off-road equipment.

DIVISION AND PROGRAM DESCRIPTIONS

ADMINISTRATIVE & BUSINESS SUPPORT SERVICES DIVISIONS

- Provides executive / management and administrative business support services to all divisions and programs within the District.
- Services include Information Technology (IT), Human Resources (HR), Permit Processing, public information requests, Accounting, Finance, Budget, Facilities, Fleet & Vehicle services, utilities, District communications, legal services, and general oversight.

GOVERNING BOARD

- Clerk of the Board services including meeting parliamentarian, Board agenda and minutes management, and Board meeting official records for both the APCD Governing Board and Hearing Board.

ENGINEERING DIVISION

- Issues permits to businesses and facilities that emit air pollutants. Permits are facility-specific, limit emissions, and provide for compliance with air quality regulations.

- Creates inventories of air pollutant emissions from permitted sources.
- Implements a State-mandated "Air Toxics Hot Spots" program to reduce toxic emissions from facilities and associated public health risks in communities.

COMPLIANCE DIVISION

- Ensures compliance with Federal, State, and local air pollution control requirements via inspections of regulated facilities and diesel-powered heavy-duty trucks and equipment.
- Conducts inspections of building renovation and demolition operations where asbestos may be involved.
- Issues enforcement documents and penalties when violations are documented.
- Responds to complaints about emission of air contaminants.
- Provides education and outreach on measures to comply with air quality requirements.

MONITORING & TECHNICAL SERVICES DIVISION

- Operates a regional network of outdoor air monitoring stations pursuant to State and Federal requirements.
- Operates neighborhood-scale (local or street level) air monitoring instruments in disadvantaged communities selected by the State for additional targeted action to improve air quality.
- Issues daily air quality forecasts and reports and, if necessary, air pollution health advisories and alerts.
- Performs air pollutant modeling for permit applications to determine air quality compliance.
- Measures air pollutant emissions from permitted facilities to verify compliance, known as source testing.

OFFICE OF ENVIRONMENTAL JUSTICE

- Develops strategies to engage environmental justice stakeholders and disadvantaged communities in APCD policy, budget development and priority-setting.
- Supports development and implementation of the Community Air Protection Program to improve air quality in communities that experience disproportionate burdens from exposure to air pollution.

AIR QUALITY PLANNING, RULE DEVELOPMENT & INCENTIVES PROGRAMS

- Allocates grant funding to assist businesses, public agencies, and residents to replace their higher polluting vehicles and equipment with new low or zero-polluting versions. Projects are solicited, evaluated, and funded by APCD pursuant to State guidelines.
- Prepares plans to attain and maintain Federal and State clean air standards throughout the region.
- Develops rules to implement those plans and reduce emissions from stationary sources.

BUDGET SUMMARY BY PROGRAM

Budget by Program (\$38.5 million)

BASIS OF BUDGETING

The District's basis of budgeting is modified accrual, which is recognized as the generally accepted method of accounting for State and Local Governments. Using this method of accounting, revenues are recognized when they are measurable and available, and expenditures are recorded when the related fund liability is incurred. Modified accrual accounting can also divide available funds into separate programs within the District to ensure the money is spent where it was anticipated.
